THOUGH MENTALLY DEAD, SLAYER TO HANG TOMORROW

Chicagoan Must Be Carried To Scaffold For "Physical" Execution.

(Continued from Page One)

Justice Orrin N. Carter of the State Supreme court yesterday denied a petition for a writ of mandamus to compel Judge Kitcham Scanlan to grant a writ of error so that an appeal might be taken to a higher court. The same petition was placed before Federal Judge Carter today to save Church from hanging at 4 o'clock tomorrow afternoon.

Church lies in the death chamber of the Cook county jail apparently oblivious to life and to the fate that awaits him.

Dr. H. I. Davis, professor of mental diseases at the University of Illinois, and Dr. Clarence A. Neymann, superintendent of the Cook county psychiatric hospital, re-applied a number of scientific tests, but there were no reactions to indicate any mentality.

"The question as I see it," said Dr. Davis, "is whether Church is sane enough to be hanged. It is my opinion that he is not. That he cannot. No matter what his original motive may have been, Church is now incapable of a voluntary act."

Church will be placed in a chair tomorrow afternoon and carried to the scaffold. The noose will be adjusted, the chair placed on the trap and the chair will fall when the trap is sprung.

EXECUTION DENOUNCED AS "POLITICAL ISSUE."

SPRINGFIELD, Ill., March 2.—(By the Associated Press.)—Harvey Church in Chicago tomorrow is to be a public spectacle for which invitations have been issued. Attorney Frank J. Tyrrell, of Chicago, appeared here today as an American citizen before Governor Small and pleaded for clemency for the condemned man. The hanging of Harvey Church, the lawyer said, "has become a political issue in Cook county. It is a part of the campaign for sheriff of Chief Deputy Laubenstein."

Police Fines For Month Total \$4177

The fines collected in the two police courts for the month of February amounted to \$4,177, according to the financial statement which was issued by the clerk of the courts, Edwin Keese Jr. and A. G. Swalley.

In Police Judge Edward J. Tyrrell's court the fines collected were \$2946 and in Police Judge Mortimer Smith's courts they were \$1231. The fines in both courts for violations of the motor vehicle act amounted to \$1041.

Funeral Service Of U. C. Student Is Held

BERKELEY, March 2.—Funeral services were held yesterday for Miss Dorothy Katherine Roe, a freshman student at the university, who died after an illness of some weeks. The body has been taken to Los Angeles, the home of Miss Roe, for interment. Miss Roe was survived by her mother, Mrs. Grace Maynard, and a sister, Miss Margaret J. Roe, also a student in the university.

New Rules for Schools Are Favored by Advisors

(Continued from Page One)

that this control is most intelligently, exactly and certainly exercised. This responsibility of the board for control of accounts so obviously goes hand in hand with the board's responsibility to the people for economical and proper expenditure of public funds that it can only be wondered at that any board permitted itself to be separated from this important and safeguarding duty.

In this particular, therefore, your committee recommends that the auditing department be restored to the immediate control of the board of education and placed under direct charge of the secretary of the board as its official agent.

HANDLING OF RECORDS HELD INADEQUATE.

The present system for handling records in the school department your committee deems entirely inadequate either for control of the course of current business, for ready reference or for preservation of the integrity of the records.

Instead of being the agency through which the course and control of current business is exercised, the records are merely a by-product or residue left after completion of transactions of record. The following results follow quite naturally:

A—Absence of exact information where and when it is most needed as to the exact status of pending matters or the official action in certain types of cases.

B—Lack of that intimate control over official functioning that prevents delays and detects failure to obey orders or the exceeding of authority. At any time the board may reverse itself without knowledge that it is doing so.

Your committee, therefore, recommends in this particular that the card index filing system be adopted by the board, to be operated under control of the secretary of the board.

THREE OF BUSINESS FUNCTIONS REMAIN.

4. After restoration of the secretarial and auditing functions to the control of the Board of Education, as hereinbefore referred to, there will remain in the Business Department only the following activities:

A. Care and maintenance of buildings and grounds.

B. Purchase of material and supplies.

C. Storing and distribution of material and supplies.

A. The care and maintenance of condition of a building and its grounds is exactly similar whether those buildings be school, store or factory buildings. The fact that school buildings are involved in this case does not make it a subject for pedagogical concern. A maintenance job is a maintenance job irrespective of the structure.

Examining the functioning of this department in the immediate past under present rules, placing control of this function under the superintendent of schools, your committee finds many of the older school plants of Oakland in a neglected condition particularly as to appearance and certain other factors of upkeep. This condition is quite likely to make trouble in fact the attitude of the people of the Golden Gate district relative to new school facilities was undoubtedly caused by the neighborhood feeling as to the appearance of the present Golden Gate school.

PURCHASE OF SUPPLIES ALSO TAKEN UP.

B. The problem of the purchase of material and supplies is identical whether it be of raw material for factory use, staples for retail distribution or school supplies for consumption of school plants. In every particular proper specifications de-

termine character and quality. In the purchase of standardized supplies, which cover many items in school use, catalogue references fix the identical articles of purchase. Purchasing agents are members of a real profession which has grown to importance in recent years. They buy everything from needles to locomotives and, to a well informed, competent buyer, proper specification of all things is necessary. Again the fact that it is school supplies that are to be bought does not make this a subject for pedagogical concern.

Storing and distribution of material and supplies involves merely proper care for movable property and its correct distribution on proper requisition under proper regulations. The present store department method of storage of the service are well organized and competently handled. Adoption of proposed rules will not affect either personnel or methods.

Your committee approves the establishment of the Business Department under direct control of the board and recommends favorable action upon Art. III Section 7 of the proposed rules.

It is to be noted that this action does not involve any increase in expense, does not make any new positions or excuse for new positions, but is simply a rearrangement of supervision in its entirety.

Under modern conditions of educational organization and operation, the position of superintendent of schools is a highly technical position requiring in a large degree those abilities which result from thorough educational and pedagogical training and experience. Natural talents and professional training are the favorable conditions which produce the real specialist in any technical profession but the pedagogical expert is in a class by himself as an individual of character, for he must deal with the most elusive, varying and uncertain element, the human mind in its formative period.

No higher function is performed by any public or private educator, and no profession among men is charged with a higher responsibility to society. In the cultivation of higher standards of educational efficiency, in the clearing away of the fog of ignorance and superstition, in the higher ideals of human service, the school service is the uplifting force of civilization.

NO HIGHER FUNCTION IS PERFORMED BY ANY PUBLIC OR PRIVATE EDUCATOR, AND NO PROFESSION AMONG MEN IS CHARGED WITH A HIGHER RESPONSIBILITY TO SOCIETY.

From the perusal of Article III, Section 3 of the proposed rules, the duties of the superintendent of schools are found, in part, to be:

1—Attendance at meetings of the board and its committees to give guidance in educational matters.

2—Organization and administration of all the activities of the educational department, including determination of the qualifications, conditions of employment and promotion, classification and assignment, duties, compensation and discipline of the teaching force.

3—Control over curriculum, courses of study, methods of instruction, discipline of pupils and guidance affecting particular types of pupils.

4—Determine territorial boundary of school service by units, make timely recommendations as to prospective inadequacies of existing facilities and the character and location of additions required to meet the school service to meet intensive settlement.

When it is considered that the field of these activities in Oakland is large and rapidly growing, including at this time fifty school plants, fifteen hundred teachers, forty thousand pupils, rapid increase in school population hardly to be foreseen in particular localities and the embarrassment of the increasing costs of government as expressed in taxation, the size of the job of superintendent of schools may in some degree be apprehended by the lay mind.

OAKLAND EDUCATION EXPERIMENT STATION

Since 1917 Oakland has been an educational experiment station. Under the mistaken theory that the school department organization and operation in all its functions was no part of the business of the community but all a matter for pedagogical concern, the obvious fact has been overlooked that, like any other governmental entity, a school department is first of all a business efficiency proposition of arranging and balancing of functions. The natural and inevitable fruits of such a planting are now with us.

With the school children of Oakland, the Superintendent of Schools at this time is rather a victim of these faulty methods and in the reorganization proposed by the new rules it is of first importance that this fact be given full consideration. Only constructive criticism prompted by understanding and sincere sympathy is of any service and this your committee seeks to offer to the limit of its ability.

From the foregoing your committee approves the organization of the Educational Department under the Superintendent of Schools and recommends favorable action on Article III of the proposed rules in this particular.

As to the remainder of the proposed rules not covered by particular reference herein, and which your committee finds to be largely verbatim extracts from existing rules, your committee approves and recommends favorable action thereon and upon the proposed rules as a whole.

At a meeting of the Public Education Advisory Committee held February 28th, 1922, the foregoing report was unanimously approved.

Yours very truly,

L. B. MAGOON, Chairman Public Education Advisory Committee.

CHARGES MADE AGAINST RULE OF PORTO RICO

Removal of U. S. Governor Asked By Delegate and Accusations Made.

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE.

WASHINGTON, March 2.—Demand for a congressional investigation of the acts and conduct of Governor E. Mont Rely of Porto Rico, looking to his removal from office, was made in the House today by Delegate Felix Cordova Davila, resident commissioner of Porto Rico.

Declaring the people he represented asked that this step be taken "only after the Harding administration was given free opportunity to act," Davila, who is a member of the Unionist party of the island, expressed the belief that if Governor Rely should be called as a witness before an investigating committee, "he himself will be the best evidence of the justice of our demand for his removal."

Davila charged, among other things: That Governor Rely "announced publicly that he intends to make \$200,000 during the next four years in office, whereas the salary as governor is \$10,000."

That he has endeavored to "stir up strife and discord among the citizens."

That he unlawfully interfered with the courts of justice and attempted to intimidate judges.

That in public speeches "he uttered a series of the feelings and sentiments of the citizens and denounced the flag of Porto Rico as a 'dirty rag.'"

That he declared to members of the Senate he would have the government at Washington "annul the organic act," which provides that the Senate shall ratify appointments, "unless the nominations were confirmed, which amounts to intimidation."

That he has attempted to "poison the mind and prejudice" public opinion in the United States "by stating in public speeches that prominent Porto Ricans were disloyal and traitors."

Supervisors Consider Webster Bridge Guard

The Board of Supervisors met today as a committee of the whole and took up several matters, one of which was the replacing of the downstream dolphin, or bridge guard, at the Webster street bridge. According to George Posey, county surveyor, the downstream dolphin is giving way and must be replaced at an approximate cost of \$1500. This work was ordered done and Posey was instructed to ask for bids on the work. Several hundred dollars were also appropriated for the repairs of the Bay Farm island bridge approach.

A report read before the supervisors disclosed that 95 men of Oakland, who were out of employment, are now working on the grading near the county hospital.

Labor Crisis in Britain Affects 1 Million Men

(By International News Service) LONDON, March 2.—A labor crisis affecting nearly one million men in the engineering and shipbuilding trades threatened Great Britain today. A lockout of unionized engineers on March 11 has been called following the breaking off of negotiations between the men and their employers. The workers have rejected proposals for bonus reductions effective March 15.

STROKE FATAL TO NOTED ATTORNEY

BERKELEY, March 2.—Hansford B. Griffith, well known as an attorney throughout this portion of California, died yesterday at his home, 2330 Russell street.

He had been ill for about six months, following a stroke of paralysis.

Griffith was attorney in Alameda county for the Pacific Telephone and Telegraph Company. Before his connection with that corporation he was a practicing attorney over a period of several years.

He was born in Virginia. About 30 years ago he came to California. For the past 20 years he had made his home in Berkeley.

He was a member of the Claremont Country Club, Aahmes Temple and the Athenian Club. For more than 15 years he had been a member of the Bohemian Club of San Francisco. He was also a member of the Elks and the Berkeley Country Club.

He belonged to the Sigma Alpha Epsilon fraternity and took part in the activities of that organization up to the time of his last illness.

Griffith suffered his paralytic stroke while on a trip to a springs resort near Paso Robles.

He is survived by his widow and by a daughter, Mrs. Pauline Engstrom, who is prominent in social circles in the Eastbay section.

The funeral will be held tomorrow morning at 11 o'clock from the family residence.

DR. HUBERT WORK TO BE CHOSEN AS HAYS' SUCCESSOR

First Assistant Postmaster-General To Enter Cabinet Saturday.

WASHINGTON, March 2.—Dr. Hubert Work of Pueblo, Colo., president of the National Postmaster-General's Association, will succeed Will H. Hays as head of the Postoffice Department, it was learned definitely today at the White House.

Dr. Work, whose home is Pueblo, Colo., will take over the postoffice portfolio Saturday when the resignation of Hays becomes effective. The nomination of Dr. Work is expected to be sent to the Senate soon.

DENVER, March 2.—Dr. Hubert Work of Pueblo, who will be appointed "Postmaster-General" by President Harding, will be the second Coloradoan to hold a place in the Cabinet. Henry M. Teller of Colorado was appointed Secretary of the Interior by President Arthur in 1892.

Dr. Work will be the first member of the medical profession to hold a Cabinet office.

Dr. Work's appointment first was advocated by members of the Colorado congressional delegation. Many members of both houses of Congress joined in the request for Dr. Work's nomination. He was born at Marion Center, Pa., July 3, 1860.

Following graduation from the medical school of the University of Pennsylvania in 1886, Dr. Work began practicing in Greeley, Colo. After two years he moved to Fort Morgan, Colo., and later to Pueblo where he became a specialist in mental and nervous diseases. In 1896 he founded the Woodcroft Hospital for mental and nervous diseases, of which he is director. His work in the administration of the hospital attracted national attention among members of his profession and in 1911 Dr. Work was elected president of the American Medical-Psychological Association and last year was chosen president of the American Medical Association.

In addition to his professional duties Dr. Work has been active in politics since he came to Colorado. He was delegate-at-large to the Republican National Convention in 1908. Republican State Chairman from 1912 to 1914, and Republican nominee for United States Senator in 1916, when he was defeated by Charles S. Thomas, Democrat. The same year Dr. Work was elected Republican National Committeeman and served until 1920, when he was defeated for re-election.

Dr. Work was a Lieutenant-Colonel of the Medical Corps during the world war.

During the last presidential campaign he served in Washington, as an advisor to Will H. Hays, then Republican National Chairman, and when Hays was appointed Postmaster-General Dr. Work was his choice as First Assistant.

CHANGE IN COURTS IN TWENTY YEARS HITS PROSECUTOR

Adult Probation Officer of
County Points Out
New Methods.

One of the most marked symptoms of the almost unrecognizable change that has occurred in California's courts within the last twenty years has been the decline of the dwindling in importance of the "simon pure prosecutor's spirit," according to Leonard D. Compton, adult probation officer of Alameda county in an address today before the Scouts at a down-town cafe.

Compton told of what he described as being the extension of constructive features in the courts and the extension and application of new studies of psychology, psychiatry in both industry and the courts.

"In twenty years the courts of the land have been changed so they can hardly be recognized as such," he said. "The most marked symptom of it all has been the decline and the dwindling in importance of the simon pure prosecutor's spirit."

PROSECUTOR PASSES.

"The prosecutor, as such, finds his place in the modern court diminishing. In fifteen years' time California has built up a gigantic juvenile court system; a court where the prosecutor is absent in spirit, and where every influence that can be brought to bear is helpful and constructive for the child and the problems that affect the child."

"Progressive communities take the affairs of women out of the ordinary court, and put them into a special court, where the prosecutor's spirit is not so strongly marked, and where helpful constructive influences are growing every day."

"Traffic courts are in existence in some places, separating such things as traffic troubles from the spirit of the old court where criminals were prosecuted."

"The probation system continues to grow. Los Angeles and San Francisco have public defenders paid for out of public moneys, as well as public prosecutors paid for out of public moneys. We could have one here, did the supervisors provide the funds."

MAXIM ON TRIAL.

"The reason for these changes is in keeping with all the spirit of the new science of our ages. The courts recognize more and more clearly that the real question before them is not the technical determination of guilt or innocence, but the disposition of the person before the court. What to do with them, how to save them, child, woman or man, is the great question always in court."

"The old legal maxim that all men are equal before the law is on trial for its life. They are not and cannot be equal before the law because they are not equal before the science of today. New concepts not alone of insanity, but of mental disease and retardation are slowly forcing their way into the practices of our courts and will force their way into the written body of our laws. At present the legal attitude toward mental diseases or feeble-mindedness is fifty years out of date. It will have to change and be brought up to date."

PROBLEMS IN INDUSTRY.

"And if the law will not recognize immediately these new lights on the problems of individuals, industry will do so."

"It is almost as acute a problem in industry, what to do with the different kinds of men on the pay-rolls as it is in the courts."

"It is known that if a man is wrongly placed, at the wrong kind of work he will be not alone unhappy and his work will suffer but he will affect others about him the same way. How are you going to know what kind of a man to put on the job?"

"You are going to get your answer from the new kind of doctors, psychiatrists and psychologists, and from no other source. The same new kinds of people are going to answer the same questions for industry and for the courts. It is only a question which one adopts it sooner."

There are vamps and vamps. But not much note is taken of the male vampire. "He Vamps of History" is the title of an illuminating special article, illustrated with colors, which will appear in next Sunday's TRIBUNE Magazine.

Catarrh Of The Stomach Is Dangerous

Thousands Have It and Don't Know It. Says Physician. Frequently Mistaken For Indigestion—How to Recognize and Treat.

"Thousands of people suffer more or less constantly from furred, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind and stomach acidity and call it indigestion when in reality their trouble is due to gastric catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluids cannot mix with the food and digest them. This condition soon breeds a deadly disease in the fermented, unassimilated food. The blood is polluted and carries the infection throughout the body. Gastric ulcers are apt to form and frequently an ulcer is the first sign of a deadly cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of Epsom's Magnesia in half a glass of hot water as hot as you can comfortably drink it. The hot water washes the mucus from the stomach walls and draws the blood to the stomach while the bisulfated magnesia is an excellent solvent for mucus and increases the efficiency of the hot water treatment. Moreover the bisulfated Magnesia will serve as a powerful but harmless antacid which will neutralize any excess hydrochloric acid that may be in your stomach and sweeten its food contents. Easy, natural digestion without distress of any kind should soon follow. Bisulfated Magnesia is not a laxative, is harmless, pleasant and easy to take and can be obtained from any local drugist. Don't confuse Bisulfated Magnesia with other forms of magnesia, milks, citrates, etc., but get it in the pure bisulfated form (powder or tablets) especially prepared for this purpose.—Advertisement.

Rockridge Firm For Lower Car Fares

As a result of the action of the San Francisco-Oakland Terminal railway, in denying the request of the Oakland city council to extend the

Key Route service from Fortieth and Broadway by the Rockridge branch line which now terminates at Broadway and College avenue, the residents of the district were called to attend a meeting last night to determine further action that is to be taken in the matter.

The meeting was well attended and it was the unanimous decision of those present that the demand for better car service in the district be continued. Several of the speakers urged that the matter of applying to the railroad commission for a reduction of monthly commutation rates

should be taken up immediately in conjunction with the demand for better service. A committee consisting of W. J. Wignore, A. G. Kazebeer and V. H. Pinkney was appointed with instructions to work out such plans as may be advisable for the accomplishment

of the demands of the district for better trans-bay service for commuters. Convenient terms—spring styles THE CALIFORNIA now showing new spring arrivals. 33 Stockton St., S. F.—Advertisement.

ILLNESS DELAYS OBENCHAIN TRIAL

LOS ANGELES, March 2.—The trial of Mrs. Madeline Obenchain, charged with the murder of J. Belton Kennedy, was again halted by illness yesterday, the jury being excused until next Monday, when the last of the state's witnesses will be examined. This witness, Mrs. Mary A. Balluff, is suffering from influenza and will not be able to leave her home until the end of the week at least, it was announced.

Mrs. J. D. Kennedy, mother of the slain man, was the last witness yesterday, her testimony relating to efforts she said she had made to break up the intimacy she declared existed for about five years between her son and Mrs. Obenchain. Mrs. Kennedy, garbed in black, talked in a low monotone and did not so much as glance toward the defendant. In referring to Mrs. Obenchain Mrs. Kennedy used the term "this woman" several times.

Eleanor H. Porter has no written a more charming short story than "The Glory and the Sacrifice," which will appear in next Sunday's TRIBUNE Magazine.

Orchid Color Scheme for Church Wedding

St. Mark's Episcopal church will be the scene of the marriage of Miss Helen Hambley and George Cunningham this evening when several guests will witness the ceremony to be performed by Rev. W. R. Hodgkin. With the reason of Lent at hand, the decoration of the church will be simple in detail but at the home of the bride's parents where one hundred guests will be assembled at a reception and wedding supper for relatives and friends, yellow will be the color scheme quantities of golden daffodils, jonquills and fresias to be used in the appointments.

Miss Hambley is to be married in a bridal gown of silk net over cloth of silver. She will wear a bridal veil of tulle arranged at the collar with orange blossoms. A handsome shower bouquet of orchids lilies of the valley and cyclamen will complete the costume.

Miss Gertrude Miller, who is to be maid of honor, will be gowned in apricot toned satin and will carry a shower of sweet peas to harmonize. The sextet of bridesmaids including the Misses Marion Wilson, of Los Angeles; Grace Mead, Janet Sturdevant, of Portland, Maine; Winnifred

Women Voters Will Honor Mrs. Park

By EDNA B. KINARD.
The tea which Oakland Center, California Civic League of Women Voters, will give in honor of Mrs. Maud Wood Park, national president, is definitely named for Saturday, March 18, at Hotel Oakland. Invitations are being sent to all the centers in the bay region to join in the compliment to the distinguished visitor, whose sojourn in California will be limited to a few days. Presidents of the auxiliaries together with Mrs. Frank G. Law, state president, will be in the receiving line.

Reservations for the elaborate function may be made with Mrs. F. H. Bohlen, president of Oakland Center, Piedmont 1425 W. or Mrs. E. C. Eddy, Piedmont 1900 W. California water and power legislation will lend the theme to the center program of Friday, March 10, in Ashmun Temple. Louis Bartlett, mayor of Berkeley, and Eustace Cullinan, president of the Greater California League, will be the speakers. Mrs. H. G. Tardy will be chairman of the day.

Programs of unusual interest are announced for the section meetings preceding the general session. Mrs. Mary Carlson, a dramatic reader, will discuss "Public Speaking," and give a demonstration before the public speaking section. Mrs. Mary Merrill and Mrs. H. G. Tardy will be the speakers before the economics section. Mrs. Merrill will review the constitution of the United States. Mrs. Tardy will offer a resume of current events.

Election rumors will attract to the March luncheon of the Oakland New Century club tomorrow a full representation of the membership. A nominating committee will be elected whose duty it will be to present the regular ticket to the annual meeting. Mrs. J. W. Brace has served as president of the club during the past year.

With Mrs. George Barnes Bird installed as house mother in the Fifth and Perilla street club house and the recreation department making itself responsible for the activities of the men and boys, attention is being given by the club to the women and girls of the neighborhood. Sewing and reading clubs have been organized among the girls and working women.

Patch work quilts are being fashioned by the members to be later presented to the Baby hospital and institutions needing the bedwear. Lack of material is holding up the work which Mrs. Bird might accomplish with her clubs. A couple of yards of cotton material carefully chosen would provide a smock or jumper to the needlewoman. A demonstration cooking class for mothers will shortly be organized by the club.

Miss Elizabeth Skeele, executive secretary of the Associated Charities, and Miss Anna M. Wiebalk of Berkeley, will be the speakers before the Big Sisters of the Public Welfare League meeting in the Y. W. C. A. A review of the unemployment situation and how it is being met will be given by Miss Skeele. Miss Wiebalk will discuss "Some Phases of New Education."

The Berkeley Delphian club of which Mrs. A. H. Cheney is president, has changed its hour of meeting from 2 p. m. to 10 a. m., insuring the new custom which will permit the members to adjourn to the series of lectures in the Palace of Fine Arts in the afternoon tomorrow. The local study hours are held in the studio of Mme. Lydia Sturdevant. Miss Suzanne Throop will begin a new series of talks on the French School of Art tomorrow.

Willem Dehe and Mrs. Vernon Smith are the artists who will present the program before the Home club tonight, Dehe, now associated with the San Francisco Symphony, is an eminent Dutch cellist, and a former soloist with the Russian Symphony. He will be assisted at the piano by Mrs. George H. Richardson. Mrs. Smith is a pupil of David Bisham and Yvette Guilbert. Miss Margaret Drew will assist her.

Mr. and Mrs. E. A. Young will be host and hostess. The annual meeting of the Business and Professional Women's club is scheduled for tonight in the Broadway headquarters, a dinner preceding the presentation of reports by the retiring board and election of new officers. Mrs. Gladys Barndollar is president.

The Fathers' Night which Elmhurst Parent-Teacher association announces for Saturday night has been postponed until health conditions in the east districts are improved. The later spring will witness the mothers' compliment in compliment to the men of their households. Election of officers is announced at the meeting scheduled for Monday afternoon.

Women's clubs are still offering substantial contributions to the citizens' fund which is taking care of the unemployed and their families. Park Boulevard Women's club this week made a gift of \$60 netted from the St. Valentine theater party at the Fulton. From Oakland Civic Center \$8.50 was given the proceeds from a benefit card party last week.

SPANISH CLUB TO MEET.
The weekly meeting of El Centro Espanol will take place on Tuesday evening, in the auditorium of Alden branch library, Fifty-second and Telegraph, Oakland. The meetings are open to the public, without any dues for membership. Miss Alice Christal of Berkeley will tell of her six months' visit in Spain.

The facts, so far as they are known, about the mysterious personality of Robin Hood will be told in next Sunday's TRIBUNE Magazine, one of the series under the heading "History's Mysteries."

Making a Sale

Making a sale is something more than an invitation to buy. There are four well-defined steps in consummating a sale, getting attention, arousing interest, creating desire and inducing decision to buy.

Careful instruction in every element entering into making a sale will be given in the three months' course in salesmanship that starts at Heald's Business College on Monday evening, March 6. The class will meet once a week. For full information write, telephone or call.

ACCURACY in Small Watches
As you reduce the size of a watch movement so you increase the care necessary in its making. Therefore, the small watch costs more to build, if it is made to keep accurate time and give dependable service.
There are many thousands of small watches made abroad, but now reposing in American bureau drawers, useless to their owners because they were made at a price and not to keep time.
These are reasons why the American citizen is discovering that a good watch must have the record of its maker behind it and his word to guarantee it.
The Waltham small watch is made with the utmost care and to exceedingly high standards of quality throughout. It is famous as a time-keeper and, with reasonable care, will last a lifetime.

FOSS TO FIGHT
SUIT TO OUST
LUMBER PLANT

County Treasurer Opposes
Sue To Compel Removal of
His Establishment.

BERKELEY, March 2.—That County Treasurer Fred W. Foss will fight the move of residents in the vicinity of Center and Milvia streets to declare his coal and lumber yard a nuisance and a violation of the Berkeley zone ordinance was evidenced this morning when Attorney James Koford appeared in his behalf before Judge Robert Edgar. Koford filed a demurrer to the complaint of Louis Blint, who acted in behalf of complaining property owners in advancing charges against Foss. That the complaint filed by Blint is defectively drawn and does not define specifically what should be included in the classification in question was Koford's contention in asking that action be dropped because of the legal defects of the complaint. Koford said that he would render a decision on Koford's motion. This is the second time Foss' place of business has been the subject of a lawsuit in the Berkeley courts. Foss winning a verdict in his favor a number of years ago. Residents in the vicinity adjoining the Foss yard declare that the county treasurer has the right to conduct a wood and coal business, but they object to his branching out in the lumber trade. Foss, in retaliation, declares that the company of which he is head is incorporated as a lumber company and under the zone ordinance all existing businesses may remain where they were at the time of the adoption of the law. Koford contends against the Foss property which residents in the vicinity declare as "unsightly" and as a detriment to the city hall, which faces it, was filed with the council. Members of that body found the action open to them and advised citizens to fight the cars in the courts.

San Jose Pen Women
To Organize Branch

SAN JOSE, March 2.—San Jose women, under the direction of Mrs. Katherine Dunlap Cathers, met this afternoon at the old home of Edwin Markham, 432 South Eighth street, for the purpose of forming a branch of the League of American Pen Women. The meeting today follows an informal conference of local newspapermen and others which was held at which time the decision to form the local branch was reached. Besides women writers, others interested in writing and literature generally are eligible to membership in the new organization. Election of the first group of officers is scheduled for today. Tentative plans for the infant organization's first year's activities will be outlined. Mrs. Katherine Dunlap Cathers is one of the leaders of the San Francisco branch of the League of American Pen Women and active in its organization throughout the United States.

PUT STOMACH IN
FINE CONDITION

Says Indigestion Results
from an Excess of Hydro-
chloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a doctor authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermenting. The result is that food eaten sours in the stomach, much like garbage sours in a can, forming acid fluids and gases inflame the stomach like a toy balloon. Then, we feel a heavy lumpy misery in the chest, we belch up gas, we eructate sour food, or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. This will dissolve the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys, and thus promote a free flow of pure digestive juices.

Hair Often Ruined
By Careless Washing

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is Mulsified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use. Two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get Mulsified coconut oil shampoo at any pharmacy; it's very cheap and four incantations with supply every member of the family for months. Be sure your druggist gives you Mulsified.—Advertisement.

SAN JOSE, March 2.—As a result of training he has received in the agriculture department of the high school Mervyn Burke, enterprising Salinas boy, is going into the poultry business. Young Burke at present is a student in the fourth grade at his school. He has won two cups in the livestock judging contests held at Davis, one for the best judge of dairy cattle and the other for the best judge of poultry. He has purchased four incubators, with a capacity of 2000 eggs each, and has stocked up with the "best eggs available" from Santa Cruz with which to commence his feathered industry.

Ploughs Seas 40
Years, One Auto
Trip Costs \$3000

Forty years experience navigating huge merchant ships across the Pacific ocean is not of much value when it comes to navigating a medium-sized automobile through Dublin canyon, in the opinion of Captain Carl Johanson, one of the best known seafaring men along the coast, who was today ordered by Superior Judge Harris to pay a second set of damages for an automobile accident for which he was held responsible. Mrs. Mary Silva was awarded \$2000 damages against Captain Johanson. Last week Mrs. Min Dallman was awarded \$1000 for injuries received in the same accident.

According to the testimony, Captain Johanson attempted to pilot his car between two others that were passing each other near Livermore. He collided with a car driven by F. D. Dallman, general manager of the Hammer-Bray Stove company, throwing Mrs. Mary Silva, who was riding in the rear seat, with Mrs. Dallman, through the windshield and over the radiator to the highway. Through Attorney Maurice J. Bleuel, both Mrs. Silva and Mrs. Dallman, who was also injured, sued the sea captain, and both were awarded damages. The accident occurred last July.

Borah and McAdoo
Watch Third Party

By MILDRED MORRIS.
International News Service Staff Correspondent.
NEW YORK, March 2.—William G. McAdoo and Senator Borah of Idaho are being prominently mentioned as leaders of a third party in 1924. Although neither the former secretary of the treasury in the Wilson administration, nor the Idaho "fire-eater," has indicated his attitude, gossip increases that both are keeping their weather eye cocked on a third party movement and are willing to bolt their respective parties as Presidential timber for a non-partisan ticket, and the breezes and personal souls bring tidings of a sufficiently strong political upheaval to spell success. Frank Johnness of Boise, Idaho, non-partisan leader in that section of the country, declared today that either "would sweep the country as leader of a third party." Underlying the leadership of the third party movement now under way if he wants it," Johnness added. "All he has to do is to say the word and we will make him our candidate for President in 1924."

Child Struck By
Auto Asks \$25,000

Five-year-old Eunice Larsen of 1717 Minton street, Alameda, is the plaintiff in a \$25,000 damage suit filed in the superior court today against Hans Hansen, for injuries received when she was struck by defendant's automobile. Hansen, it is alleged, drove his car onto the sidewalk where the child was playing in front of her home, striking her and permanently scarring and disfiguring her. The suit is filed in the child's name by her mother, Mrs. Mamie L. Larsen. She is represented by Police Judge L. R. Weinmann of Alameda. The accident occurred February 27 of this year. According to Mrs. Larsen, Hansen was handling his automobile in a careless and inefficient manner when it struck her daughter.

Officers of Junior
Club Are Chosen

RICHMOND, March 2.—At the meeting yesterday afternoon of the Junior Richmond club at Richmond club house the officers selected by the nominating committee were ratified as follows: President, L. L. Lindquist; Ieda, Ogborn, vice-president; Karmel Wilson, second vice-president; Olive Nixon, recording secretary; Pauline Hall, financial secretary; Geraldine Rock, corresponding secretary; Grace Luckin, treasurer. The second annual dance will be held Saturday evening, the committee for the evening being Dorris Lindquist, co-chair; Elvada Mills, decorations; Geraldine Rock, punch. Mrs. R. N. Petersen will chaperone the dance.

Presbyterians Plan
Special Services

RICHMOND, March 2.—Special services will be held in the First Presbyterian church beginning this Sunday morning and continuing for two weeks. Rev. A. Dow, evangelist, will conduct the services. Rev. Dow tells of his own life of regeneration, the early days of which saw him sink to the depths of Chicago's worst life, later rising to a place of influence among active evangelists following his conversion to Christianity. He comes from a recent successful series of meetings at Calistoga.

Foresters Planning
Membership Drive

RICHMOND, March 2.—A campaign for increasing membership will be put on by Court Progress No. 260, Foresters of America, it was decided at last night's meeting. One candidate was nominated last night in W. O. W. hall. The court plans a whisky party to be held on March 15, at the hall.

Native Daughters To
Hold Big Tag Day

RICHMOND, March 2.—Native Daughters of the Golden West are planning to hold tag day next Saturday for the benefit of the homeless children of the order. It was planned previously to hold a tag day in February, but sickness prevented carrying out of the plans. Mrs. Charles Swartz is chairman of the committee in charge of the tag day.

WATER PUMPED OUT

RICHMOND, March 2.—City Engineer H. D. Chapman is busy pumping pools of water out of vacant lots and into drains throughout the city. The presence of shallow pools in the low land of the city proper is regarded as a menace to health. The city is also replacing open drains with culverts.

Much has been written about queens of the Apaches of Paris, until the latter is almost relegated to the category of things fictitious. However, Sterling Heilig, Oakland TRIBUNE special writer in Paris, brings forth interesting data to prove that there are queens of the Apaches, and he tells about some of them in next Sunday's Magazine.

MAN ACCUSED OF
LOOTING FREIGHT
TRAIN IS HELD

Testimony of Officers Taken
At Examination of Man
Found in Yards.

RICHMOND, March 2.—H. L. Royston, charged with burglary in connection with thefts of merchandise from a Santa Fe freight car near Christie on the night of February 18, was held to answer to the superior court by Justice of the Peace John Roth yesterday afternoon. Deputy District Attorney H. V. Alvarado conducted the prosecution offering testimony of eight witnesses, two of whom were called to identify three shipping cartons containing tobacco, and which formed a portion of the freight shipment found in an automobile operated by the defendant and drawn up by the side of the Santa Fe tracks near Christie. Attorneys Pierce & Carlson offered no testimony.

Police Inspector Buford V. Shirley arrested Royston following receipt of a wire from Claude R. Davidson, Santa Fe special officer, who saw two men board a Santa Fe freight about 10 o'clock Saturday night from his hiding place at the foot of the embankment at Seventh street, North Richmond. More police arrived at Christie shortly after Royston's arrest, but no sign of the other alleged confederates could be found.

Fred E. Phillips, division special agent for the Santa Fe, declared that the railway company had been systematically robbed for several months past. A. Coon and R. H. Howard, both of Richmond, are charged with selling stolen goods in connection with the Santa Fe freight car thefts. Coon operates a cigar stand and Howard conducts a rooming house on the floor above Coon. Besides Phillips, Claude R. Davidson, Santa Fe special officer; Police Inspector Shirley, and Chief Wood of the Richmond police, and the following department clerks of the Santa Fe railway appeared: George W. Brown, seal taker; C. A. Cassasa, tracing clerk; C. H. Cornwell, chief clerk; J. R. Baker, seal clerk. The stolen goods were consigned to Kust-Goldstein Company, Fresno, Cal. Special Officer Davidson told how he was detailed to watch the Santa Fe tracks at the Seventh street viaduct on the night of February 18, investigating the goods in the tannery of Royston's car. Shirley removed a revolver from Royston's shoulder scabbard, then shackled the prisoner to the officer's steering wheel.

Youth's Career
As Spender Is
Halted by Court

LOS ANGELES, March 2.—(By International News Service.)—Dapper Tony Mello, aged 16, who arrived here two weeks ago, posing as a practicing physician, oil magnate and "man about town," was ordered back to San Leandro today for a hearing in the juvenile court, and his father's whereabouts Young Mello, after a gay but brief experience in cabarets and cafes of Los Angeles, was arrested by the juvenile authorities on charges of forgery. He is said to have passed several hundred dollars worth of checks, drawn on a bank in San Leandro and signed with the name of Dr. Charles Miller, his family physician. Dr. Miller appeared before Referee J. W. Libby of the juvenile court today and urged that the young boy be returned to his "home town" for punishment.

When young Mello arrived in Los Angeles he is said to have gone to a downtown hotel under the name of Dr. Charles Miller, he exhibited a telegram purporting to be the announcement of an oil strike in Dallas, Texas. On the strength of these representations, the hotel proprietor, taxicab companies and cafe managers rushed checks for him which were returned after two weeks by the San Leandro bank, dishonored. It was stated by Referee Libby today that on condition that young Mello make reparation to those he is said to have defrauded that he should be turned over to the Oakland juvenile authorities. His father's name is said to be Antonio Mello.

SAN LEANDRO, March 2.—Tony Mello was formerly employed in a drug store here. At one time he also sold real estate.

PLEADS GUILTY TO THEFT

RICHMOND, March 2.—Antonio Cardoza, charged with theft of a piece of brass pipe from the Western Pipe and Steel company, where he was employed, pleaded guilty yesterday to the charge before Police Judge C. A. Odell. Sentence will be pronounced late today. It was stated that the third member did not board the train, but passed over the embankment to the street and there was shortly picked up by an automobile. Police Inspector Shirley detailed the arrest of Royston, saying that the defendant was working over the adjustment of his engine close to the Santa Fe track near Christie, about midnight and arrested him after investigating the goods in the tannery of Royston's car. Shirley removed a revolver from Royston's shoulder scabbard, then shackled the prisoner to the officer's steering wheel.

SOCIETY DUPES
OF BROKER KEEP
HIM IN TOMBS

NEW YORK, March 2.—Alfred E. Lindsay, "ladies' broker," who is alleged to have defrauded wealthy society women whom he interested in fraudulent stock schemes of close to a million dollars, today continued to languish a forlorn figure in Tombs prison while friends are trying to obtain \$50,000 bail. Lindsay suggested to Assistant District Attorney Richard C. Murphy that his women victims let him out of jail so that he could make money to repay them.

I can make money, but I can't do anything while I am in jail," pleaded Lindsay. But thus far the society women dupes of the broker have turned a deaf ear to his plea and have not receded from their determination to prosecute him and keep him in prison. Miss Florence James, one of Lindsay's victims, told the district attorney that Lindsay, in order to interest women friends of hers in his market scheme, staged parties and supplied funds for these affairs. These women, Miss James declares, subsequently became his clients.

In answer to the question,
Who profits with
the P G and E?

You benefit by
this Public Utility!

OF COURSE, the more than 8,000 men and women who work for the Pacific Gas and Electric Company are benefited by the Company's operations for they have good jobs. More than 41,000, who own the securities of the concern, are benefited for they make a fair return on their investments.

But, practically everyone else in this community benefits through the operations of this big enterprise. Let's see how:

Individuals cannot begin to make their own gas and electricity as cheaply as this Company can supply it.

Again, one is benefited by the convenience which results from having gas and electricity brought to the home, business establishment, and factory.

But most of all, citizens are benefited because of the industry and commercial activity which follow in the wake of this Company's developments.

When the Company develops more hydro-electric power, more manufacturing and commerce with attendant opportunities present themselves.

As the Company lays more gas mains, more homes are built giving employment and increased business to many people.

Thus, the dollars that come to this Company are poured out again to create opportunities for all.

CHESTER, Ill., March 2.—The business section of Steelville, 12 miles north of this city, was virtually destroyed by fire late last night. The damage is estimated at nearly \$100,000.

SPEAKERS NAMED FOR EX-SOLDIERS BONUS MEETING

National Vice-Commander of Legion and Judge Church To Be the Orators.

Speakers who will address the mass meeting to be held at the Municipal Auditorium Sunday afternoon under the supervision of the ex-service men's organizations of the Eastbay district to advocate the passage of the cash bonus bill now before Congress, were announced today by the general committee in charge. First on the program will be Charles H. Kendrick of San Francisco, national vice-commander of the American Legion. Judge Lincoln S. Church will discuss the bonus question from the layman's point of view, while Kendrick will speak on the issue from the point of view of the former soldier. Other speakers will be Assemblyman George J. Hatfield, of Modesto, a member of the Legion, and Leon Kutner, a capitalist.

All Legion posts of Alameda county will assemble at the City Hall at 1:30 Sunday afternoon. The Legion ranks will be augmented by the Veterans of Foreign Wars, the United Veterans of the Republic and Disabled American War Veterans. The units will march as a body down Broadway to Twelfth street and down Twelfth street to the Auditorium. Several bands, including that of Oakland Post No. 5, of the Legion, will lead the parade. Every effort will be made to get as many people to attend the mass meeting as possible.

DEMOCRATS HONOR WOMAN. WASHINGTON, March 2.—Mrs. Emily Newell Blair, Democratic National Committee woman from Missouri, has been appointed to the national headquarters staff by Chairman Cordell Hull. She will be associated with the bureau of organization. It was announced, the woman's bureau being discontinued as a separate unit.

ROOMERS FLEE FLAMES. CHICAGO, March 2.—Twenty-six persons were forced to flee from the rooming house in which they lived when fire early today burned the building occupied by the Naples Macaroni company and spread to the rooming house adjoining, causing a loss estimated at \$50,000.

INDIAN GIRL TO VISIT CHINA AS STUDENT ENVOY

LAWRENCE, Kas., March 2.—Ruth Muskrat, a Cherokee Indian girl from Oklahoma who is a student at the University of Kansas here, will visit China this spring as a delegate to the World's Student Christian Federation Conference at Peking, April 4.

The hope of the conference, Miss Muskrat explained recently, is to get students of various parts of the world in vital touch with each other and, among other things, solve the problems confronting Chinese students who have become imbued with Occidental ideas.

Miss Muskrat, who is 17, has done Y. W. C. A. work in New Mexico and worked among her people in religious and educational work.

Sam Levitt, Rail Traffic Man, Quits

Sam Levitt, well known Oakland railroad man, has resigned his position as traffic office manager of the San Francisco and Sacramento Railroad to enter the building material business in Los Angeles. Levitt has been for the past six years identified with the local road, with headquarters at Fortieth street and Shafter avenue.

During the war he served as military instructor in the Jacksonville, Fla., training camp. A few months ago he married a Los Angeles girl and his determination to engage in business there is partly because of the fact that his wife's family and friends are located in the south. L. H. Rodabaugh, traffic manager of the road, announced today that a successor for Levitt has not been named.

CALL OUT FOR U. S. TEACHERS IN PHILIPPINES

SAN FRANCISCO, March 2.—There exists a great need for English-speaking teachers in the Philippines Dr. E. A. Gilmore, newly appointed vice-governor of the Philippines, told the members of the San Francisco Civic Center yesterday afternoon at the Hotel St. Francis. Dr. Gilmore, who is en route to Manila, will have charge of the administration of public instruction and education in the islands. He said:

"The present number of American teachers in the Philippines is only four hundred—out of a total of 15,000 teachers. This figure is too small, and should be increased substantially. One of the main objects of the schools is to teach the children to speak English, so

5000 Shovel Snow In New York Streets

NEW YORK, March 2.—More than 5000 snow shovels were at work today clearing away the two inches of snow which the tail-end of last night's storm left in the city streets. The weather forecaster predicted rain and sleet before the end of the day.

that it may become the language of the people." Dr. Gilmore states that the Philippines are vitally interested in the matter of public education, and he says that the rapid development of the educational system of the islands has been phenomenal. He states that "practically one-tenth of the population is at present attending school."

The insolent alarm clock that went off at the wrong time

For a little while it gave the call at 7 a.m., and was useful. When it began calling at midnight and 2 o'clock in the morning, it became a nuisance.

When tea or coffee stimulates the nerves at mealtime it seems pleasant, but when it gives the wake-up call at midnight and leaves nerves hungering for sleep at mid-afternoon, the pleasure is gone and serious harm is on the way. This often happens.

Thousands of people have found it fully

as pleasant and far more safe, to get the comfort of a hot meal-time cup of Postum—and to know that there's not going to be any irritation to nerves afterward.

Postum is delicious and satisfying, and it contains no element that can harm nerves or digestion. Postum is a safe and delightful drink for every member of the family, at any meal.

Your grocer has both forms of Postum: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Poland Faces Hot Wet and Dry Fight

WARSAW, March 2.—The "wets" and "drys" are having a hot conflict over proposals to restrict the use of alcoholic liquors in Poland. The movement for more rigid control over the use of liquor is becoming more active. Newspapers are full of discussions of the question and there are numerous lectures on alcoholism while moving pictures are shown to promote the reform movement. The example of America is constantly cited with heated arguments as to whether prohibition is effective in that country.

Luigi Denza, Noted Composer, Is Dead

LONDON, March 2.—Luigi Denza, composer of "Funicoli Funicola," which has been translated into almost every civilized language, has just died in London, age 76. "Funicoli Funicola" originally was a Neapolitan dialect song and was composed by Denza in 1880 at the opening of the railway up Mount Vesuvius. Denza was born in Italy and was the composer of numerous musical works.

BUSINESS CLUB'S NATIONAL CHIEFS EXPLAIN GROWTH

"Excess Legislation" Attacked by Speaker at Hotel Oakland Luncheon.

The extended activities of the Progressive Business club during the past few months were outlined to the members of the organization yesterday, at a luncheon at the Hotel Oakland.

John Marshall, national president, and Leigh H. Irvine, national secretary of the organization and editor of the "Progressive," the club's official publication, told the members of the new aims of the club.

The establishment of districts, with governors and boards of trustees, the publication of a national magazine and the adoption of a constructive policy, are the three things accomplished within the past few months, according to Marshall. He told of mistakes made in the past and declared that these had been eradicated and that the new program would do a great deal toward building new clubs more rapidly. The new plan provides for awarding charters to new clubs with 25 members instead of 50, as formerly.

"The club, nationally, is in better shape today than ever before," said Marshall in concluding his address. Declaring that 80 per cent of the nation's laws are trampled under foot and that the country is hampered by petty legislation, Irvine, in speaking of the policy of the club's new magazine, said that one of the chief aims of the new program would be the "opposition to excess legislation on American soil." The new policy he said also included vigilance in seeing that nothing was taught in the public schools that would be detrimental to the ideals upon which the country was founded, and equal vigilance for just and fair dealings in the courts of the country.

Irvine called attention to the vast sums he declared were now being spent for useless legislation, and said that the cost of state government had jumped from \$18,000,000 in 1906 to \$92,000,000 at the present time.

Aerial Polo Latest Stunt for Birdmen

MIAMI, Fla., March 2.—Aerial "polo" is a new sport engaging the attention of the dozen or more aviators flying lan and seaplanes here and the aimers to be successful in the game are forced to resort to trick flying that includes every stunt from the Immelmann turn to the maple leaf drop.

A motorboat bearing several dozens of toy balloons filled with gas is sent out on Bay Biscayne and when the planes engaged in the contest take the air and are equidistant from the launch the balloons are released all at one time. The aviator who captures the greatest number is declared the winner.

FRATERNITY ON PROBATION.
ANN ARBOR, Mich., March 2.—The Sigma Alpha Epsilon fraternity has been placed on probation for one year, following investigation by the committee on student affairs, University of Michigan, that drinking was permitted at a house party, February 11. Members of the chapter were placed on probation for an indefinite period.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brooding at home is mussy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.—Advertisement.

American Architects Praised by Frenchman

PARIS, March 2.—The praises of American architects, whose work he describes as a "new art" in the truest sense of the word, are sung by George Wybo, a young French

architect, in the columns of the *Intertransigent*. The old skyscrapers of New York, he says, "are not always the happiest examples of architectural conception," but the newer office buildings erected within the last ten or 15 years are described as "immaculate in execution, well proportioned,

possessing harmonious lines, with decorative elements of sober taste, constructed of splendid materials, finely fashioned."

NAVAL RESERVE REORGANIZATION PLAN PREPARED

Three Classes Proposed By Bill Submitted For Inspection.

WASHINGTON, March 2.—Complete reorganization of the naval reserve is proposed in a tentative bill prepared by the naval department and forwarded to officials of the Naval Reserve association by Secretary Denby for comment before it is presented to congress. Included in the proposed act is the provision for a merchant marine reserve section and for certain merchant ships to fly a reserve emblem.

The bill would abolish all existing naval or marine corps reserve and establish a naval reserve as a "component part" of the navy, consisting of three classes, the fleet reserve, the merchant marine naval reserve, and the volunteer naval reserve. A separate section provides for reorganization of the present marine corps reserve in conformity with the new plan. It would have two classes corresponding to the fleet reserve and the volunteer reserve of the naval establishment.

All present members of the various classes of naval reservists, both officers and men, and the naval militia would be brought into the new system, officers not to be above the rank of lieutenant-commander except for a "small percentage" in the rank of commander or captain "for the recruiting, organization, administration, training, inspection and mobilization of the naval reserve." Enlistments in the reserve would be for four years while officers would hold their commissions "during the pleasure of the president."

Reservists of the first two classes could be ordered to duty by the president in time of war or national emergency, to serve throughout the war emergency, but in time of peace could be called out only with their own consent, except for pre-arranged training. While on duty in uniform they would be subject to navy regulations and orders. The volunteer reserve would be liable for war duty only.

WARNING!

Due to the marked superiority of IRONIZED YEAST it is being widely imitated. IRONIZED YEAST is entirely different from ordinary combinations of yeast and iron—or yeast and iron taken separately. Certain types of yeast and iron have absolutely no medicinal value. IRONIZED YEAST on the other hand means not only specially cultured yeast, but the exclusive process through which this yeast is ironized. There is only one IRONIZED YEAST. Insist upon it always—for nothing else can be like it. Go to your druggist—or mail coupon today.

Blue Bird Bureau

It's hard lines when you have saved up money to buy a "bike" and then it is stolen, especially so if you are a little lame boy and help support your widowed mother. If you don't believe it, read the following letter to the Blue Bird from a thirteen-year-old boy:

"Dear Blue Bird:

"I am a boy of thirteen and had my wheel stolen from me by a boy about sixteen years old. He came up to me and took it from me when I was going up for my papers. He rode away with it and I have not seen it since. I have asked the police to help find it but they have found no trace of it. I saved my little earnings to buy this wheel for two years. I have one lame leg which hurts me to walk or run. I had to give up my route because I could not walk to deliver my papers. For eighteen months I have delivered my papers and have not missed a day. And now I can earn nothing for I have no wheel. I thought by writing to you and you putting it in the paper perhaps someone would help me to get a cheap wheel not costing much money. My mother is a widow and I help her all I can to make a living as you have helped others I hope you will help me get a wheel."

Doesn't it appeal to you, Goodfellows, a little chap "carrying on" in spite of handicaps?

During the last week the Blue Bird has heard of four or five families, all equally needy, all equally worried over the problem of feeding hungry mouths—children's too. Children's clothes are needed and fathers are out of work. The Blue Bird will be glad to give names and addresses over the phone to anyone wishing to help.

Lobsters Under Ban After 5 More Days

Lobster season for local fishermen closed yesterday but the period of grace for purchasers to consume the stock on hand will terminate in five days. After that the shell-fish will not be seen again on tables until October 15. Fish and game officials were busy today warning local markets and fish dealers of the end of the season.

GRILLING CLEARS 6 L. A. SUSPECTS, POLICE ANNOUNCE

Slueths Unable To Corroborate Woman's Charges of Taylor "Plot."

LOS ANGELES, March 2.—(By the Associated Press).—The six men arrested Tuesday on information furnished by Mrs. John Rupp, their housekeeper, have no connection with the murder of William Desmond Taylor, it was announced today by Detective Sergeant Herman Cline, in charge of the investigation. He said examination of Mrs. Rupp and investigation conducted by the detectives that there was no foundation to her statements that they had threatened the life of Taylor.

The six men are John H. Herkey, Walter Kirby, William East, George Calvert, Ray Lynch and Harry Amornheim.

Police guard over the residence of Mrs. Rupp was removed after the failure of detectives to obtain any corroboration of her statements. Police officers in the investigation from the sheriff's office and district attorney's staff are continuing inquiry along other possible leads, and the search for Edward F. Sands, former butler-secretary of Taylor, continues.

By FRANK H. BARTHOLOMEW, United Press Staff Correspondent. LOS ANGELES, March 2.—The general persons prominent in the motion picture industry, including two leading actresses, were being quizzed today by police detectives following new leads in the William D. Taylor murder mystery. The investigators were working on an angle to the "movie murder" uncovered by Mrs. John Rupp's accusation against two of six alleged gangsters under arrest at central police station.

The film folk being quizzed are named by Mrs. Rupp as customers of the ring of bootleggers and narcotic peddlers that she accused of responsibility for the film director's death.

In addition to the actresses, who were being questioned at their homes, a well-known producer was also being interrogated.

MAN FALLS 20 FEET, LANDS ON HEAD

BERKELEY, March 2.—To fall twenty feet from a tree and land on his head, escaping with only minor injuries, was the good fortune yesterday of R. B. Bilbro, 2133 Blake street, an employee of the Pacific Gas and Electric Company.

Bilbro was at work at Elm street and Dwight way with a gang of men trimming trees. He lost his footing and fell to the cement sidewalk. Fellow workmen picked him up in an unconscious condition and rushed him to Temple Hospital.

At the hospital, where Bilbro regained consciousness, it was found he had a slight concussion of the brain and minor bruises and cuts.

Vagrant Sentences Self To Thirty Days

ALAMEDA, March 2.—When Frank Johnson, arrested for vagrancy, was taken before Police Judge L. R. Weinman today, he was granted the privilege of sentencing himself.

"If you were in my place," said the court, "and I were in your place, what would be the sentence?" Johnson drew a long breath, looked at the bailiff and then replied: "I'd say about 30 days."

"Very well," said the court, "that's it."

Speeders who paid fines of \$5 each were George King, M. Halstead, Gus Poso, F. Piedmont and F. P. McLeannan. T. Katayama, a Japanese, was fined \$10.

D. A. R. Presents Flags To Warship

SAN FRANCISCO, March 2.—The Daughters of the American Revolution presented three silk flags to the superdreadnaught California yesterday. There were 400 members of the organization on board.

The presentation was made through Mrs. O. H. Harshbarger, state regent for California. The flags comprised the colors of the nation, state and navy.

Two Unions Oppose Ship Subsidy Plans

SAN FRANCISCO, March 2.—Opposition has been announced by the Iron Trades Council and the Sailors' Union to the ship subsidy proposed by President Harding in his message. It is announced that California representatives in Congress will be asked to support the labor organizations in their stand.

SPRECKELS GIRL CUSTODY PACT BARED BY SUIT

SAN FRANCISCO, March 2.—Filing of a claim against the estate of John D. Spreckels Jr. by Tiffany & Co. for payment for an \$80,000 pearl necklace purchased by his former wife, Sidi, revealed that an agreement was drawn up at the time through which Mrs. Spreckels was to surrender custody of their daughter, Geraldine, if she failed to meet payments on the necklace. Spreckels had signed the agreement, but his wife had not. The disappearance of the jewels after Mrs. Spreckels had given them to Captain William Barrett caused a sensation in London.

Temperamental Man Loses Divorce Suit

SAN FRANCISCO, March 2.—An interlocutory decree of divorce has been granted to Dolores Calderon Linares from Lieutenant Frank J. Linares by Judge Murasky. She said that her husband was temperamental and moody. They were married at Star of the Sea church on December 31, 1920. Three months after their marriage Linares sued for an annulment of the marriage, charging that his wife was mentally unbalanced. They were later reconciled.

Missing Stock Gets Hoteling Into Court

SAN FRANCISCO, March 2.—An investigation into the disappearance of 2499 shares of stock in the Hotelling case will be made in Judge F. A. Griffin's court tomorrow. Richard Hotelling has been cited for contempt because of alleged failure to release the shares of stock to the Union Trust Company. The stock involved is valued at \$1,000,000.

Jean Davis Apperson Is Granted Divorce

SAN FRANCISCO, March 2.—Mrs. Jean Davis Apperson has been granted a divorce from William Ray Apperson. The decree was granted yesterday in Judge Cabanis' court. The Appersons were married on December 3 and separated on February 9. During that time, according to Mrs. Apperson, she spent \$500 on Apperson. She said he laid claim to wealth and high social standing, whereas, according to her story, he had been employed in a local restaurant as a salad maker.

SHAKE-UP IN DRY FORCE IN S. F. IS PREDICTED SOON

Rutter Will Make Changes in Office Force, Is Belief of Those Employed.

SAN FRANCISCO, March 2.—Local prohibition enforcement circles are expecting a thorough shake-up as the direct result of the appointment of Samuel Rutter, of Oakland, as prohibition director of California in place of E. Forrest Mitchell, resigned.

It generally is believed that when Mitchell relinquishes his office, many members of his staff either will resign or be shifted. Tom A. Brown, who has been considered Mitchell's right-hand man, is among those slated to go.

Telegraph advices received here yesterday quoted Commissioner Haynes at Washington as saying that there had been a lack of cooperation in Mitchell's office.

MITCHELL PRAISED. "There has been a lack of complete sympathy and harmony in Director Mitchell's organization," Haynes is quoted as having said. "I have repeatedly stated that when ever conditions in any state develop to such point that the maximum results could not be attained, changes in personnel would follow. Director Mitchell fully appreciated this fact and several months ago filed his resignation, which has not been accepted before for the reason that it was thought that there might be an improvement."

FORMERLY HELD POST. Rutter formerly held the post just resigned by Mitchell. He was called east some time ago and made assistant to Yellowley in reorganizing the New York prohibition enforcement staff there. Later he was in charge of enforcement in Pennsylvania.

In 1920 he exposed a bootlegging ring which was withdrawing great quantities of liquor from bonded warehouses.

Haynes' action followed a conference with Senators Shortridge and Johnson.

Yellowley has reported to Commissioner Haynes a general improvement of prohibition conditions in the territory in the west and southwest, where he traveled on an inspection trip. His tour covered Los Angeles and San Francisco.

Funeral Saturday For Nellie Crowl

BERKELEY, March 2.—Last rites will be said at 10:30 o'clock Saturday morning at Knox Presbyterian church for Miss Nellie Crowl, secretary of the Berkeley board of education, whose death occurred yesterday after a year's illness. Rev. James Falconer, pastor of the church, in which Miss Crowl was an active worker, will officiate. Interment will be in Sunset View cemetery.

Miss Crowl is survived by her mother, Mrs. Frances Crowl; two brothers, W. C. Crowl of Berkeley and J. Frank Crowl of Turlock; and a sister, Mrs. Anna E. Frier of Denver, who came to Berkeley some weeks ago.

Lady Rhondda Wins Her Fight for Seat In House of Lords

LONDON, March 2 (By the Associated Press).—The petition of Lady Rhondda to sit in the House of Lords was granted by the committee on privileges of the House of Lords today. If she takes the seat awarded her by this ruling she will be the first woman to sit in the upper house of the British parliament, as Lady Astor was in the lower house.

Lord Donoughmore presided over the committee. After Lady Rhondda's right to the present title was established her counsel argued that the sex disqualification removal act had clearly applied to a case like the present and that the disability existing in the past now being removed Lady Rhondda was entitled to sit in the House of Lords.

After further arguments the attorney general, on behalf of the crown, said he raised no objection to the petition, which was therefore granted. Lady Rhondda thus becomes the first woman to sit in the House of Lords. Interviewed after the decision Lady Rhondda expressed her delight that the case had gone in her favor.

Lady Rhondda is the daughter of Viscount Rhondda, Great Britain's war-time food controller, who died in 1913 from an illness brought on by overwork. His only child was the daughter, wife of Sir Humphrey MacWork.

ALAMEDA SIGNS IGNORED. ALAMEDA, March 2.—Signs mean nothing to the residents who live in the vicinity of Third street and Taylor avenue, according to a complaint filed with the police today by City Manager C. E. Hickok. The city has placed large conspicuous signs in the district reading "No Trucking or Dumping of Rubbish." The citizens are doing both, according to Hickok, and he has requested the police to investigate and capture the nonbelievers in signs.

U. S. WILL CHECK FAST-GROWING STOCK SWINDLES

Federal Action Is Planned To Protect People From Bunko Operators.

By PAUL R. MALLON, United Press Staff Correspondent. WASHINGTON, March 2.—Federal action to save the American people from financial "wizards," confidence men, stock salesmen and bunko operators, who are swindling them out of a sum estimated by some experts to be close to \$100,000,000 a year, was planned today by the government.

The recent exposé of the big swindles in New York and Chicago, the alleged bucketshop activities in New York and the numerous failures of brokerage houses, have caused government officials to hasten the framing of their campaign against the swindlers.

Legislative measures have been composed to force rigid enforcement of "blue sky" laws. They are being studied by the Federal Trade Commission and probably will be sanctioned and submitted to Congress.

Until these laws can be put into operation, Attorney-General Daugherty, who has made a widespread investigation of fraudulent business schemes, has issued an appeal to governors of states to use all their powers against the swindlers.

Daugherty asks that those States which have "blue sky" laws make every effort to clean their areas of illegitimate oil stock promoters, illicit "bucketshop" operators, and other get-rich-quick men.

Estimates gathered by the Department of Justice show that cases of

EAST HALL, U. C. LANDMARK, WILL SOON TAKE TRIP

BERKELEY, March 2.—East Hall, one of the oldest frame buildings standing on the University of California campus, will be taken on a trip through the college grounds, and established in a new location. Today, workers began cutting the landmark into three sections, and soon the parts will be moved out the College avenue entrance of the grounds and across the women's athletic field to a site near the present zoology building.

The structure, which was one of the original campus buildings, is being moved to make room for the new four-story concrete physics building, which will be known as Le Conte Hall.

Man Ends Life After Duel With Rival

SACRAMENTO, March 2.—With a bullet hole in his head and a note in his pocket addressed to Mrs. Nellie Parrott of this city, stating that he intended to commit suicide because his place in her affections had been supplanted by another, Fred Perez, young local carter, was found last night on a park bench by members of the police department in a dying condition and taken to the emergency hospital, where he died a few minutes later.

Perez was identified by detectives as the man who earlier in the evening engaged in a pistol duel with Philip Perry, winning the latter slightly. The detectives stated it was evident the dead man believed Perry was his rival.

the get-rich-quick army, now pending in Federal courts throughout the country, involve approximately \$150,000,000 of improper stock sales and confidence schemes. These have accumulated during the last few years, and there are hundreds of other cases of swindling which have never come before the Federal courts.

MINERS TRAPPED 1000 FEET UNDER GROUND RESCUED

Grass Valley Men Feel Numb the Worse After 14 Hours in Blocked Mine.

GRASS VALLEY, March 2.—Three miners today were none the worse for fourteen hours imprisonment 1000 feet below the surface of the earth. They were trapped by a slump fall in the Idaho-Maryland gold mine and owe their lives to the staunchness of an air and water pipe which withstood the shock of the rock fall. Rescue workers drilled through the rock fall late last night and brought the men to the surface.

"We had plenty of food and were all right after the first half hour," said William White, one of the three entombed. "It took us about a half hour to open up the air pipe. After that we were all comfortable. We missed our tobacco because our coats were buried, but some of the boys sent us down the 'makin's' and that helped. We conserved our food supply, as we did not know how long it would take the boys to dig us out."

Irwin Haskins and Frank Pathousk were the other miners rescued.

Much has been written about queens of the Apaches of Paris, until the matter is almost relegated to the category of things fictitious. However, Sterling Heilig, Oakland TRIBUNE special writer in Paris, brings forth interesting data to prove that there are queens of the Apaches, and he tells about some of them in next Sunday's Magazine.

COLOMBIA PACT RATIFICATIONS ARE EXCHANGED

U. S. Pays \$25,000,000 For Loss of Panama and Gives Canal Privileges.

WASHINGTON, March 2.—Ratifications of the treaty between the United States and Colombia, whereby the American government pays Colombia \$25,000,000 as compensation for the loss of Panama, were exchanged yesterday in Bogota, according to advice received today by the Colombian legation.

The exchange of ratifications brings to a close a chapter in American diplomatic history that was begun in the Colombian capital April 6, 1914, when the treaty was signed in behalf of both governments.

URGED BY HARDING.
The treaty was submitted to the United States Senate for ratification on June 16, 1914, by President Wilson. There it was pigeon-holed until June 3, 1920, when it was reported back with certain amendments. President Harding, on assuming office, recommended ratification and this was accomplished last April 20.

The United States Government engages to pay to Colombia a sum of \$25,000,000 in full of all claims against this government growing out of the formation of the republic of Panama and construction of the Panama canal. The first payment, \$5,000,000, is to be made within six months after the exchange of ratifications and the remainder in four annual installments.

GIVEN CANAL RIGHTS.
The treaty also provides that Colombia shall have the right to take materials of war and ships of war through the Panama canal without charge, except in case of war between Colombia and another power.

It also provides that the products of Colombian soil and industry, as well as Colombian mails, shall have passage through the canal on the same terms as produce and mails of the United States.

Coal, petroleum and sea salt are to be taken through the canal on payment of the actual cost of handling, provided such shipments originate in Colombia and are intended for Colombian consumption.

On its part the Republic of Colombia promises to recognize the Republic of Panama as an independent nation.

The American government pledges its good offices in having Panama despatch an agent to Bogota to conclude with Colombia a treaty of peace and friendship and to adjust all questions of jurisdictional liability as between the two countries.

D. A. R. PRESENTS THREE PLAYS TO U. S. WAR FLEET

Daughters of the American Revolution participated in an impressive ceremony aboard the battleship USS Oregon at the entrance of the Pacific Fleet, now in San Francisco waters yesterday, when formal presentation was made of three silken flags. Mrs. U. H. Harshbarger, of Oakland, State Secretary, on behalf of the order, made the address. She sketched the history of the "Star Spangled Banner" and the Bear Flag. Captain Henry J. Ziegemeier accepted the flags.

Approximately 400 patriotic women were on board the California during the ceremonies which were scheduled as a part of the entertainment for the national president-elect, Mr. Harding, and his party, now in the Bay cities.

Mrs. Minor, national president, and Mrs. Livingston Hunter, treasurer-general of the national society, who are accompanying her on an official tour of the country, were the guests of honor this afternoon at an elaborate tea at Hotel Oakland. Chapters on the east side of the Bay were the hostesses. Mrs. Minor and her party leave Saturday for southern California where the state conference will be held during the coming week.

Woman's Clothing Stolen From Auto

A grip containing clothing valued at several hundred dollars belonging to Mrs. W. T. Holston of the Athens Hotel was stolen from an automobile parked at Eleventh and Washington streets. The theft was reported to the police last night.

J. L. Ingram, 310 Walker avenue, reported to the police that his home had been entered by burglars. A diamond stick pin and gold nugget pin was taken.

A revolver and a stick pin was reported stolen to the police from the home of Lester C. Ross, 465 Bell View avenue. The entrance was gained by jimmying a rear window. George Algeo, 2228 Vicksburg street, told the police that \$135 was stolen from the dresser drawer. The burglar entered the house by jimmying the bath door window.

While T. Yamada and his family, 2933 Union street, slept peacefully, burglars ransacked every room in the house. They took \$3 in currency and a gold watch.

Artillery Inspection Will Be Held Tonight

Annual muster and inspection of Batteries A and B of the Field Artillery, California National Guard, will be held tonight at the Municipal Auditorium under the direction of the War Department. The inspection will be made by Major Robert Welshimer, C. A. C., of the regular army. The inspection will include the checking over of the entire equipment of both units, including the 64 horses, stables and gun sheds at Leona Heights.

Club To Hear Of School Building

The \$5,000,000 school building program of the city of Oakland will be explained in detail by Charles W. Dickey, supervising architect, who will speak before the Optimist Club at the weekly luncheon at Hotel Oakland tomorrow.

Using drawings to illustrate his talk, Dickey will point out the architectural features of the various buildings and will tell what progress is being made in the great scheme, which has been connected with the department since the inception of the program.

Improvement Associations Organize to Work for City, Community Betterment

Officers Elected; Platform Adopted Setting Forth Program for Efficiency.

The Civic League of Improvement Associations, formed to work for city and community betterment, was formally launched last night at a meeting in the Albany Building and newly elected officers today went into office. The meeting was attended by more than a hundred persons, including representatives of practically all of the city's civic, patriotic and fraternal organizations.

The following officers were elected: President, Felix Fibush, president of the Vernon Rockledge Improvement Club; vice-president, Ernest Engler, president of the Diamond Improvement Club; treasurer, W. E. Witter, president of the Santa Fe Improvement Association; secretary, J. M. Kinson, secretary of the Diamond Improvement Club, and sergeant-at-arms, H. E. Brown of the Vernon Rockledge Improvement Club.

The trustees are: Homer Brink, Charles T. Witter, Alfred M. Leclair, Charles P. Hunt, and George P. Keyes.

A platform consisting of nine planks which set forth ideas for civic betterment was adopted and followed:

- 1.—The administration of city and county business must be efficient and economical.
- 2.—The tax rate must be reduced, waste checked and extravagance ended.
- 3.—The charter must be obeyed and the laws must not be broken to serve any personal or political aims or ambitions of office holders.
- 4.—Each department of the city and county government exists solely as servants of the community; each department must be animated with the spirit of efficient service.
- 5.—To investigate the qualifications of all candidates for public office and make recommendations as to their fitness.
- 6.—The greatest menace to the American form of government is the apathy of the electorate; every effort will be put forward urging exercise of the franchise.
- 7.—In favor of municipal ownership of water supply and distribution.
- 8.—In favor of acquiring property for municipal uses only after competent appraisal duly advertised before purchased.
- 9.—In favor of the acquisition of Redwood Peak Park.

Oldest Resident Of Stockton Dies

STOCKTON, March 2.—Henry Stier, Stockton's oldest citizen, died at his home here this afternoon after a long illness at the age of 103 years. Born in 1819, Stier came to the United States at the age of 17 years, landing at Baltimore, and was a resident of St. Louis during the cholera epidemic of 1848. He cast his first vote in the United States for Franklin Pierce for president in 1852.

News of the discovery of gold in California led him and Mrs. Stier to come to the west coast. Accordingly they sailed down the Mississippi, across the Gulf of Nicaragua and then by the Nicaraguan route to the Pacific, where they took a steamer to San Francisco. They came to Stockton by boat in 1857 and Stier has resided here since.

Contra Costa Has Bumper Fruit Crop

MARTINEZ, March 2.—A record fruit season in Contra Costa is anticipated by fruit shipping and packing concerns, according to G. B. Putnam of Walnut Creek, fruit company representative. Putnam has made a comprehensive survey of orchard conditions and says a bumper crop of all varieties of fruit can be anticipated.

The Stewart Fruit Company is constructing a new packing station near Concord and several smaller stations are being established in various districts.

4000 U. C. Students Get Grades Winning

BERKELEY, March 2.—More than 4000 "clich notices" were sent out to students at the university yesterday. The notices are mailed as warnings to all students having low grade averages in scholarship and attendance. The number mailed this semester is 216 less than that of last year.

"A Tenderfoot in the Arctic," by George C. Henderson, in next Sunday's TRIBUNE Magazine, throws new light on the things of the far north, as viewed by a business man who makes his first trip into the ice land. It is the story of a San Francisco merchant.

A COLOR STAIN FOR STRAW HATS

Also For Fancy Slippers, Etc.
Anyone can recolor straw hats, satin, silk, or canvas slippers, basketry, etc., if they will use the right preparation.
It does not require any special skill to do this work but you should be sure to use "Colorite" if you want to get the best results.
It comes in a large variety of colors and you apply it with a brush. A great many ladies use it to color the straw of their spring hats. 25c a package.

A COUGH SYRUP FOR THE BABY

Contains No Narcotics
We have a cough syrup that is different from the ordinary kind.
Most cough syrups are made for adults and contain a small percentage of narcotics. Such remedies are all right for men and women but are pretty severe for children, especially little babies.
This new cough syrup is compounded without these poisonous substances. It is just as effective as the ordinary cough syrups and a great many grown people are using it in preference to the old-style remedies, while hundreds of our patrons will use nothing else for their little children. It is called F. B. Cough Syrup. I sell at 25c a bottle.

A WONDERFUL BACKACHE PLASTER

Price 50c and Worth It
Bowman's famous red felt backache plasters have been reduced from 65c to 50c each. During the period of high costs we found it necessary to raise the retail price to 65c which has been in effect for 2 or 3 years.
Before the war they sold at 50c each.
This is the greatest backache plaster that we have ever seen and the finest that backache can procure. The results are so far superior to the ordinary backache plaster that the price is never considered by those who use them.
These plasters are of solid wool English felt of the very finest grade and you must not confuse them with the veneered wool felt kind sometimes sold.

MAIL US YOUR KODAK FILMS

Exceedingly Satisfactory Results.
If you are out of town, you can send your Kodak films to us by mail and get the prints before you complete your trip.
Our Kodak Department does a large mail order business, with exceedingly satisfactory results to all customers.
A great many of our patrons who are traveling send their films to us as fast as taken, with instructions to hold the pictures until they return to Oakland. The result is that upon the day they return they can come in and get the prints without further delay.

A GOOD FRIEND FOR A COLD NIGHT

A Lynwood Hot Water Bag
One of the best friends most of us have these cold nights is a good hot water bottle and the best hot water bag for the money that we know of is the Lynwood Bag, now selling at our stores in the 2-quart size for \$2.00.
In hospitals, where hot water bags receive the most service, the Lynwood Bag is the great favorite. Nurses, who know whether or not a hot water bag is serviceable, generally prefer the Lynwood.
We guarantee these bags against defects and we assure you that in our opinion, you can buy no better or more serviceable hot water bag for the money anywhere. We have been selling the Lynwood Hot Water Bags for a great many years and no article that our store has ever handled has made us more friends than this particular line.

CURE THAT COLD

If you feel a cold coming on you can often head it off by taking a few of Bowman's Cold Tablets. These come in handy vest pocket bottles at 25c. Quite often a serious illness starts with a cold for which you exerted a little attention when the cold first makes its appearance.
The mean temperature of the month was given at 47.4, and the maximum temperature, at 57. The minimum temperature was recorded on the second, third and twelfth as 33, the report showed.
There were 7 clear days, 7 fair days and 14 cloudy days. Frost was seen on 6 days, and fog was seen only on one morning. There was ice on the second and third, according to the report.
February is said to have been the "snowiest" month the mountains of California have experienced in many years. Figures compiled at the weather bureau show that 51 inches of snow fell at Summit in the high Sierras during the month, and at the end of the month there was thirteen feet on the ground.

VACUUM BOTTLES—ONE DOLLAR

We have just received a shipment of imported Aluminum Vacuum Bottles which we are able to sell at the extremely low price of \$1.00 each. These are good, serviceable bottles and just the thing for lunch picnics, etc. They come in the pint size only and the quart fillers are 85c each.

TWO BURGLARS CAUGHT, \$5000 IN LOOT RECOVERED

San Francisco Policeman
Compels Thieves To Drop
Musical Instruments.

SAN FRANCISCO, March 2.—Caught in the act of ransacking the Arthur Drug Store at 622 Post street, after they had assembled \$5,000 worth of loot, two alleged burglars were taken into custody by a posse of police officers at an early hour today. When they were surprised by three patrolmen the pair had succeeded in gathering \$1,000 in cash, a quantity of narcotics, eight cases of champagne, a barrel of whiskey, a barrel of alcohol and a barrel of spirits.

Patrolman E. G. Desmond noticed the side basement door of the drug store open, standing at the curb was an automobile, the tonneau of which had been removed and a box attachment substituted. Summoning policeman James Grant and Special Officer Robert Lyne, Desmond entered. Lyne remained on guard and Grant with his brother officer, proceeded into the cellar with drawn swords.

TWO YOUTHS FOUND.
They came upon Oliver Lindley, 20 years old. He claimed to be the only man in the place and a search of his pockets revealed coin and checks from the cash register. He said he had nowhere to sleep and had been spending his nights in the automobile.

Suspecting that he was shielding someone the officers continued their search, they found hiding under a bench Lloyd Nash, 18 years old, 545 Eddy street, who admitted that he had been formerly employed in the place. The police say it was information furnished by Nash that led to the burglary. The pair had gathered their loot including a large quantity of narcotics and were about ready to load it on the machine. It was alleged when they were surprised by the police. Both were charged at the city prison with burglary.

W. D. McLeod is the proprietor of the Arthur Drug Company.

DROP CLARINET.
Patrolman A. Lennon was trying doors along Sutter street just at dawn today when two men hurried past him. He turned in time to notice something suspicious and cautiously followed. The pair were carrying gunnysacks. As he pursued, they sighted him and ran, dropping their bundles. The chase led to Broadway street where the fugitives fled to the tunnel and up the stairway into Bush street, where they disappeared.

Returning the officer discovered that the bundles contained a variety of musical instruments and a guitar, valued at more than \$1000.

Epworth League To Aid Jobless' Fund

A musical and entertainment will be given in the Epworth League auditorium on the evening of March 14 by the Epworth League Alliance of Alameda county for the benefit of the unemployed of the Eastbay cities. A large group of talented performers have offered their services.

One of the principal numbers on the program is Jerome Shaffer, who mixes art, music and fun. He is only one of many on a well-balanced program.

Blackheads Pimples

All who have used Beauty Bleach to clear the complexion of blackheads and pimples, and to remove tan, freckles and similar skin discolorations, enthusiastically proclaim it a wonderful skin beautifier.

Black and White Beauty Bleach and in connection with Black and White Soap is most effective—will not harm the most delicate skin. Black and White Beauty Bleach, 50c the package; Black and White Soap, 25c the cake, can be found at your drug or department store.

Write Dept. C, Plough, Memphis, Tenn., for your Beauty Bleach and leaflet which tells all about Black and White toilet preparations.

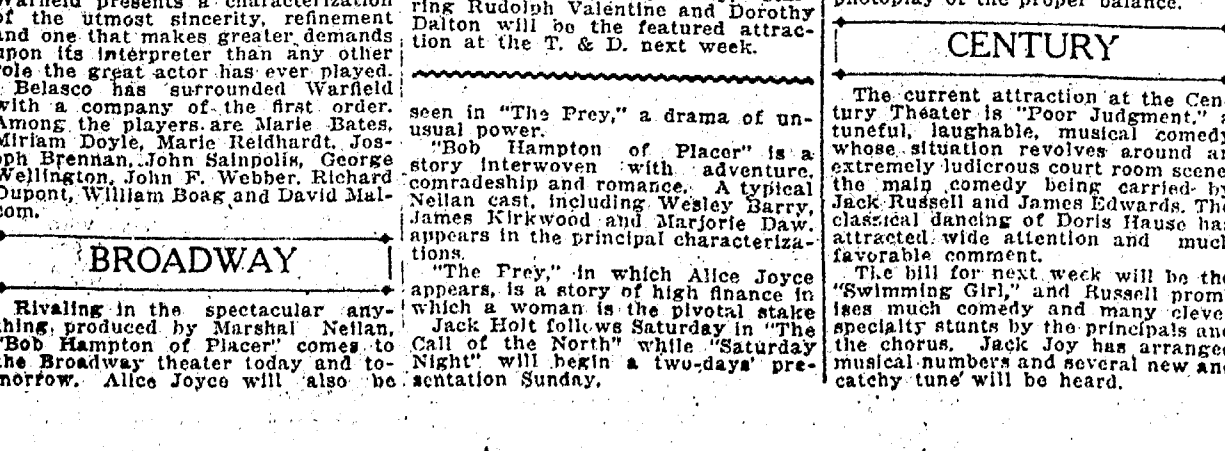

Removes Hairy Growths Without Pain or Bother

(Modes of Today)
It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these beauty destroyers. To remove hair make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone. Mix fresh as wanted.—Advertisement.

SAN FRANCISCO, March 2.—Plans are under way today to urge Congress to appropriate \$30,000 annually in building a seventy-mile belt line of roads around Lassen peak and the Lassen National Park as the result of a meeting here yesterday of the officers of the newly-organized Lassen Volcanic National Park Association. The present appropriation for the needs of the park is \$5000 annually. The officers of the association are A. L. Conrad, Red Bluff, president; Dr. George C. Parry, Oakland, vice-president; M. R. Dittmar, Redding, secretary; and Jules Alexander, Susanville, treasurer.

Business Course To Start At "Tech."

A limited number of adults will be admitted to the Tuesday and Thursday evening intensive business course, just being formed at the Technical Continuation High School under the community club plan. It was announced today. This course covers the opening, preparation and closing of statements, and provides a course in double-entry books, and teaches short cuts in figuring interest or discount on notes, bills, and teaches the business law on contracts and commercial papers. The class will meet in room 229 from 7:15 to 9:15 p. m.

A course in millinery will be organized by the Technical Continuation High School next Monday evening.

Improved Postal Service Promised

SAN LEANDRO, March 2.—In reply to a recent communication by Farley Granger, secretary of the San Leandro Chamber of Commerce, to J. J. Rosborough, Oakland postmaster, requesting a betterment of postal service in Broadmoor, it was stated by Rosborough that conditions would receive his immediate attention. It was further stated by the postmaster that conditions were being re-arranged, necessitating a complete change in routes.

Granger's letter was the result of complaints from Broadmoor residents that delivery of their mail was several days late at times.

Stanford Woman Is Back From Parley

STANFORD UNIVERSITY, March 2.—Mrs. Elizabeth B. Snell, Stanford appointment secretary, returned here last night from Chicago where she attended a joint conference of the National Committee of Bureaus of Occupations and Vocational Activities. She was made chairman of a committee to organize the appointment secretaries of colleges and universities of the United States into a national organization.

The National Committee of Bureaus of Occupations endeavors to place trained women, particularly graduates of colleges and universities, in positions.

FRANKLIN

Wally Reid continues at the New Franklin in his rollicking comedy, "Rent Free." The play is starred by Betty Compton in Clyde Fitch's "The Law and the Woman." "Rent Free" abounds in most amusing complications, plenty of new comedy and romance with pretty Lila Lee as the chief dispenser. Wally plays a budding artist who is thrown out on the street because he can't pay his rent. He takes possession of an empty mansion and gets acquainted with two girls who are in a similar predicament. The trio is surprised by the owner of the mansion returning from abroad who has them all arrested. On the same program is a thrilling drama of the U. S. navy, a comedy, Mutt and Jeff and the Urban Movie Chats.

LOEW'S STATE

Eugene O'Brien is now playing Loew's State Theater in his latest comedy drama, "Chivalrous Character." To those who fancy hair-breadth escapes, perilous situations galore, roving adventures and a good deal of old-fashioned exercise in the gentle art of self-defense, "Chivalrous Character" will provide an invigorating entertainment.

STRAND

"Don't Tell Everything," one of the biggest comedy dramas of the season, opens two day run at the New Strand Theater. Thirty-third street and Telegraph avenue, tonight. Wallace Reid and Gloria Stuart are cast in the two principal roles and are ably supported by Elliott Dexter and a specially chosen all-star cast. The story is a satirical comedy in which a couple, endeavoring to answer the problem whether or not engaged couples should have a "honeymoon" in each other. The locale of the story runs all the way from the social life of the big city to the remote corners, thereby insuring a variety of action. A specially chosen Hall Room Boy comedy and a Pathe review round out a well-balanced program.

NEW CHIMES

Immensely pleased audiences glimpsed the domestic conflict that goes on in certain types of American homes while witnessing the presentation of "A Man's Home," the New Chimes Theater yesterday when this fine, big and convincing screen drama began a two days' engagement.

A notable array of players make up the cast. Harry T. Morey, hero of a score of successful photoplays, is cast as the neglectful but engaging husband. Kathryn Williams portrays the flighty wife who almost disrupts the happiness of her husband. Grace Valentine plays the adventuress, and Roland Bottomley performs as her partner in the conspiracy. Moore and Fairs Binney are entrusted with the juvenile roles.

Nation Recovering From Aftermath of War, Declares Fess

WASHINGTON, March 2.—One year of Warren G. Harding finds the United States rapidly recovering from the aftermath of the world war, Representative Fess, Republican, of Ohio, told the House today in reviewing the first year of Harding's administration. "One year ago," Warren G. Harding found the nation with her relations with all foreign countries strained to the breaking point, her fundamental principles under discussion, her historic significance in position, her population surfeited with the profits of war and wild extravagance, her industries inflated by over-expansion from war demands and problems of reconstruction complicated and imminent," Fess said.

"Today he sees peace again established with all countries, foreign relations resumed with honor to ourselves and complete justice to others, the finest attitude of the world towards our moral leadership as evidenced in the arms conference."

"Today we have a proper regard for the defenders of the nation's rights, an economic administration upon the soundest principles of economy, a reduction in our public debt to the amount of two billion dollars, a reduced taxation of nearly \$250,000,000 per year, and a rejuvenated agricultural and industrial fabric."

"We are the only country which is not only balancing its budget, but has really reduced the war debt."

Fess' speech was regarded as one of the opening guns of the Republican campaign to retain control of Congress and was also an answer to recent widespread Democratic criticism.

Veterans Urge Close County Relationship

SAN LEANDRO, March 2.—San Leandro Post No. 117 of the American Legion has announced through H. M. Bradley, as recently in favor of a recently formulated plan to bring all of the Alameda county legion posts into a closer relationship. At a recent meeting of representatives from each post in the county, held in Oakland, plans were made for the proposed promotion of good fellowship and "get together" spirit, and also to adopt a constitution for the county council. San Leandro post has turned over the proposed constitution to its executive and county committee for a report, before ratifying, but it is said by Chairman Bradley, of the county committee, that this will be a mere formality, and that the constitution will be ratified at the next regular meeting of the local post. The meeting will be held March 10.

Ladies' Aid Making Plans For Banquet

SAN LEANDRO, March 2.—The Ladies' Aid Society of the Presbyterian church of San Leandro is making plans for the annual meeting and dinner next Wednesday evening. The dinner will be open to the entire congregation and their friends. It is indicated that the affair will be one of the local post. The meeting will be held March 10.

STOLEN AUTO FOUND.

SAN LEANDRO, March 2.—An automobile parked against the curb on East Fourteenth street, near Saunders street, San Leandro, during yesterday's rainstorm, aroused the curiosity of Marshal J. F. Peralt. Investigation proved that the machine was one stolen from the Goodyear Rubber company, 1563 Mission street, San Francisco, Tuesday. The discovery was made by the Oakland police last night and the owners claimed their machine today.

TROUT ROD IS SIGN OF SPRING

"Well, Sis, spring is here all right. Dad brought home a new trout rod tonight, and you know that is a sure sign. He always begins to read up on California geography about this time of year to find a brand new trout stream where he hasn't fished yet. And speaking of spring, Sis, I suppose you will follow the usual lead and grab dad now in a happy mood for a lot of new clothes. How about it?"

"You horrid thing. You talk like I have to hit dad on the head to get some new things. Well, I don't see as it happens. I don't even worry about spring clothes this year."

"When? How come, Sis? Going to marry some poor fellow who couldn't escape?"

"Not yet, dear brother. You didn't know, did you, that dad is giving me a new allowance and I get my clothes out of that. I buy everything at Cherry's now at 615 13th street. I am paying a convenient sum every month. Jolly good place, I call it. You know, brother, you ought to take advantage of their easy terms, too. You could dress a lot better and never miss the money in small monthly payments. The store for men is at 523 13th street."

DEMOCRATS FACE BIG HANDICAP IN NEXT ELECTIONS

Fight For Control of Next Senate To Be Centered in Ohio.

By HERBERT W. WALKER.
Press Staff Correspondent.
WASHINGTON, March 2.—Republicans have a heavy handicap over the Democrats in fight for control of the next Senate.

This fall will witness 34 senatorial battles. To retain control the Republicans must send G. O. P. senators back to only eight of the 15 they now hold, which are open to re-election, and the Democrats must return members of their party to all of the 15 seats they hold, the terms of which expire next year. Five of the Republican seats are in the rock-riddled state of Pennsylvania, Maine and Connecticut. Several others are in state normally Republican.

Present indications are that the Democrats will concentrate their attacks in Ohio and the farming regions of the middlewest, with a flank attack in Massachusetts in the hope of getting revenge for Henry Cabot Lodge's defeat of Woodrow Wilson's Versailles treaty. They want Ohio in order to be able to charge in later campaigns that President Harding was repudiated in his home state.

The extent of preliminary preparations at the national campaign centers indicates that the senatorial fights this year will rival in intensity the presidential contests.

Democratic leaders, as the first campaign move, have appointed national and state finance managers and have appealed for funds to wipe out deficits. They are hoping the response will be such that some "heaven" can be placed in the party's strongbox.

Republican leaders are equally active. Early primaries, the first of which will be held in South Dakota next month, have hastened the preliminary preparations.

COX HOLDS CONFERENCE.

WASHINGTON, March 2.—Important Democratic party conferences are being held here today by James M. Cox, the party's presidential candidate in the last election.

The major of these was a visit of Cox to Woodrow Wilson. This was mainly a visit of courtesy, but it was admitted that politics and the arms conference treaties were discussed.

Cox would make no comment on the conference. He is meeting several party leaders here and it is understood plans for the forthcoming congressional elections are being discussed.

700 Eastbay Beauties Will Frolic in Mills Spectacle

MISS KATHARINE EDSON, a solo dancer in "The Vision of Fair Women," the Mills Club pageant to be presented Saturday afternoon and evening in the Municipal Opera House.

Plans for College Pageant Saturday Are Given Final Touches

With the arrival of Ruth St. Denis in Oakland, "The Vision of Fair Women," the Mills Club pageant to be presented in the Municipal Opera House on Saturday afternoon and evening, is being rapidly whipped into final form. The \$2,000,000 Mills College Endowment Fund will benefit from the two performances of the period costume festival in which more than 700 local beauties in society, club and college, will participate. The evolution of woman's dress from the days of early Egypt to the present will be depicted in tableaux and pageantry. Music, drama, color and light will be combined in the gorgeous spectacle.

A symphony orchestra will accompany the parade of feminine beauty and fashion. The Wednesday Morning Club will render several numbers under the leadership of Paul Steindorff.

ROLE OF ISIS.

Ruth St. Denis will assume the role of Isis in the Egyptian Episode of a Persian dancer in the Roman and of Sappho in the Grecian. Among those who will support her in the scene in the Temple of Isis are:

FORMER BERKELEY TREE PLANTING BIG CLUB PLAN

BERKELEY, March 2.—Rev. Thomas Morgan Price, 65, well known retired Congregationalist minister and former pastor of Park Congregational church in Berkeley, died yesterday at the University of California hospital in San Francisco after an illness of several weeks. He was born in Pennsylvania.

After leaving Berkeley, Dr. Price had a pastorate at Avalon. He had been in California for the past 15 years. His widow, Mrs. Mary Price, is seriously ill at a local sanitarium. Dr. Price was the father of C. M. Price, instructor in physical education at the University of California. He also leaves a daughter, Ethel, and another son, B. J. Price. Funeral services will be held at 2:30 o'clock tomorrow afternoon at undertaking parlors at 2045 University avenue.

Gang Tunnels Into Bank in Snowstorm

EUREKA, Kansas, March 2.—Working in a blinding snow storm, and with the thermometer near zero, robbers early Tuesday tunneled into the vault of the Piedmont State Bank at Piedmont, Kan., 20 miles southwest of here, and stole Liberty bonds believed to total \$50,000 in value.

OTIS BILLIARDIST DIES.
BUFFALO, N. Y., March 2.—Charles Otis, frequently a contender in the national three-cushion billiard tournaments, died here today.

KEY EXTENSION TO ROCKRIDGE SENTIMENT ASKED

City Attorney Wants Persons Interested To Get in Touch With Him.

As a result of the agitation for extension of the Key Route service to Rockridge, and the reply of the traction company that such a road would be impracticable, City Attorney Leon Gray today advised the city council that this matter is within the jurisdiction of the State Railroad Commission and suggested that interested persons get in touch with him so that it may have anything to which to make a showing he can bring the matter before the commission. Otherwise, he says, the matter has reached an impasse.

An ordinance amending the building ordinance was passed to permit this will permit one-story buildings, with more than one street frontage, to displace with the fire wall. It has been found that the wall is not always possible to build, especially in markets.

Another amendment was passed to permit regulating gas heating appliances and the construction of gas-stove chimneys. This ordinance is the result of conferences with gas company officials, and is caused by the rapid development of gas heating appliances.

There being no protests, the sewerage of Broadway from Second to Twelfth streets was made. The closure of a portion of Nineteenth avenue north of Dennison was also ordered.

Protests were heard against the opening of Lons Ridge road to Claymont, but as two of the commissioners were absent the matter was set over until March 16, as was also the proposed new traffic ordinance.

"GARDEN CITY" PLANS ARE MADE FOR ALAMEDA

ALAMEDA, March 2.—The birthday of Luther Burbank, next Tuesday, will be made the occasion of starting a comprehensive campaign to make Alameda the garden city of the bay district. The Alameda Chamber of Commerce is behind the movement and it is hoped to induce every resident to properly hold a garden of flowers, trees and in general beautifying the city.

C. J. DeFour, superintendent of schools, is co-sponsoring the exercises, which will be held in all of the schools and then the children will assist in whatever program the chamber officials may arrange. C. C. Wilson, secretary of the chamber, will also assist in every way possible. He has been working out a comprehensive plan of street planting of trees for several years. When this plan is completed every street in the city will be lined with trees.

Roman matrons—Mesdames A. C. Harvey, Amy Childs, James Montgomery, George Preston, Nelle Nelson, Chester Myrick, Donna Goodwin, Lavonne McClellan, George Coolidge, Frederick Adams; Misses Mary Lambert, Myrtle McCabe, Alice Pearson, Lorraine Garner.

Oriental slaves—Misses Ruth Wood, Doris Haslett, Louise Hungerford, Mary Wellendorf, Clara Belle Hamilton, Clare Erickson.

Bachannale dancers—Hermia Brown, Katherine Brown, Roberta Duncan, Elizabeth Herbert.

Annual Prayer For Missions Tomorrow

The annual day of prayers for missions will be held tomorrow afternoon from 2 to 4 p. m. in the Y. W. C. A. This date has been set by the national board and will be observed over the entire nation at the same hour.

The observance of the day here is being sponsored by the Y. W. C. A. and the Alameda district, California Federation of Women's Clubs, will plant a redwood tree in Lakeside park, was completed today by Mrs. Luella Ketcham, district chairman of the Y. W. C. A. The exercises have been arranged to celebrate the anniversary of the birth of Luther Burbank. A spot on the Grand avenue side of Lakeside Park has been selected for the planting of the tree. The park board will co-operate with the clubwomen in the ceremonies. All women's organizations of the city and district have been invited to participate. The ceremony will take place at 3 p. m.

The program in full follows:

Music by the band; community singing, "America"; address, Howard Gilkey, former associate of Luther Burbank; music by the band; planting of the tree; dedication of the tree; address, Dr. Rudolph I. Coffee; music; address, "The Tree and Conservation"; Marston Campbell, president of the park board and only masculine member of the convention committee, Alameda district, C. F. W. C.

The public is invited to attend the public ceremony.

"LOOKOUT" IS SENTENCED.
Wily A. Moore, a lookout for a soft drink parlor at 701 Jefferson street, was sentenced to sixty days in the city prison after he had been found guilty by Police Judge Morther Smith of vagrancy. He was arrested by Policemen E. F. Murphy and E. A. Yankke. Judge Smith recommended that the license of the soft drink parlor be revoked.

Germany is run very economically in the matter of salaries for president and ministers, the salary of the former being the lowest paid to any head of state in the world.

HITCHCOCK ASKS CHANGES IN FOUR POWER TREATY

Nebraska Senator Opens the Debate Against Pact Ratification.

WASHINGTON, March 2.—Senator Hitchcock of Nebraska, ranking Democrat of the senate foreign relations committee, declared in an address to the senate today opening debate on the four-power Pacific treaty that he could not support it unless amendments or reservations were adopted to meet his objections.

"I have been impressed from the first that there is little profit to the United States in this treaty," said Hitchcock, stating that British interests in the Pacific were protected and Japanese mandates assured.

"Why, then, have we been dragged into this treaty?" asked Hitchcock. "It is not necessary to naval disarmament or to the protection of China. Is it for the purpose of relieving Great Britain from the Anglo-Japanese alliance which she must in any event get rid of? I am not satisfied with the President's statement that it is not an alliance."

"We are sacrificing rather too much to achieve the purpose of enabling Great Britain to get rid of the Anglo-Japanese alliance. I have never believed it was worth the price to us. It is not up to us to provide means by which Great Britain may get rid of it. So far as I know, that is the only reason the four-power treaty was accepted."

POSITION IS CHANGED.

Senator Leffort, Republican, Wisconsin, declared that Senator Hitchcock had changed the position he had taken in the Versailles treaty fight relative to alliances and territorial guarantees.

Hitchcock attacked what he described as the secrecy with which the four-power treaty was negotiated. He declared he had voted for ratification of the Yapt treaty yesterday and would support the naval and Chinese treaties.

"But I have reluctantly come to the conclusion that I cannot vote for ratification of the four-power treaty unless changes are made by amendment or reservations to have certain objections removed," he added.

This treaty was conceived in secrecy and it suggests an old-fashioned and highly objectionable alliance.

NOT IN CALL, HE SAYS.

The four-power treaty, Hitchcock said, was not in the arms conference call or of the agenda.

"The public never looked for nor anticipated this treaty; this seems to me rather significant," said the senator, adding that no notes or minutes, memoranda was kept by the delegation, and that the treaty, he said, was "behind closed doors" with no communiques given out.

"Everything was done to keep public attention fixed on the naval disarmament, and the treaty, he said, was a matter of a month's secret meetings in this treaty," he said. Despite this, he continued for the first impulse was to support the treaty.

Senator Borah, Republican, Idaho, entered the debate to declare that resolutions could not meet the situation and that amendment would be required.

Senator France of Maryland, an other Republican "irreconcilable," also served definite notice of hostility to the treaty.

Senator Hitchcock said the treaty appeared to him to be an alliance to suit him, and added that Baron Uchida, Japanese foreign minister, appeared to so regard it.

Shipwreck Victim Sues Vessel Owners

SAN FRANCISCO, March 2.—Marguerite L. Gluck, of 1406 Hawthorne terrace, Berkeley, who was a passenger on the steamer Alaska when it was wrecked off the coast last August, filed a libel against the owners of the vessel, the San Francisco and Portland Steamship company, in the Federal court today. The plaintiff claims that the company's negligence was the cause of her baggage and personal belongings, and alleges that the crew was incompetent and that the master, Harry Hovey, took the wrong course. The amount of damages will be fixed by the court.

BANKER DROPS DEAD.

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That. Read Mrs. Miner's Testimony.

Churubusco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about Lydia E. Pinkham's Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my word for it."

Churubusco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but feel no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner. All ailments ought to be tried by this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.

OAKLAND MAN TO WED SONOMA GIRL

HEALDSBURG, March 2.—A wedding of interest to the bride's many friends in Healdsburg will take place in Oakland March 12, when Norma Jean Skee will be married to Alfred G. Rohl of San Francisco.

Miss Skee is a daughter of Mr. and Mrs. James Skee of Healdsburg and has spent the most of her life in the Sonoma Valley home. About two years ago she went to the Bay Cities to study art. While there she met Mr. Rohl and their mutual interest in art led to friendship and then to romance.

The prospective groom is the son of Mr. and Mrs. O. G. Rohl of Oakland, and holds the position of district manager for O'Connor & Moffatt in San Francisco.

After a honeymoon spent in Southern California they will live in Oakland until the home now building in Berkeley is ready for occupancy.

Harbor Route Ferry Ruled Tax Exempt

SACRAMENTO, March 2.—Ocean going vessels, river steamers and ferry boats of more than 50 tons operating in California, unless they form a part of railroad transportation, will be taxed, according to an opinion given today by Attorney General U. S. Webb to the state board of equalization in the case of the Southern Pacific harbor route ferry service, which runs between San Francisco and the foot of Broadway, Oakland.

As the state constitution exempts all vessels of more than 50 tons from the general property tax, it follows that the ruling of the Supreme Court and Attorney General Webb that henceforth Creek route ferry steamers and all other vessels in that class will pay no tax neither to the state or county.

Wife Takes Potion To Scare Husband

Because she said her husband had sold her, she thought he deserved "a good lesson," Mrs. Jennie Barsi, aged 24, 2737 Boshmer street, drank about a teaspoonful of iodine. Barsi telephoned for the police ambulance, and then took her wife to the emergency hospital in a private automobile. At the hospital she was given antidotes and sent home. When the police arrived at the Barsi home they were informed by Barsi that nothing was amiss.

Man Charged With Rifling Phone Box

SAN FRANCISCO, March 2.—Urban Gaylord who runs the Ideal Hotel, 1334 Stockton street, captured an alleged burglar early today. He heard a noise about 6:30 a. m. in the office and hurrying downstairs, claims to have found the man rifling the telephone box. At the point of a gun he held the culprit captive until policeman Dooling and Porter arrived and took him into custody. A search they say revealed eleven nickels and a slug in his pocket. He gave the name of Joseph Lagan, 23 years old, and was charged with burglary.

HUSBAND IS HELD HEIR TO ALL OF HEIM ESTATE

Adopted Daughter Declared To Have No Equity in Community Property.

Because the \$35,000 estate left by Mrs. Ella M. Heim was the result of community investment, Superior Judge James G. Quinn has ruled Mrs. Marie Schneider, an adopted daughter, may take nothing from the estate, but the whole must go to Julius F. Heim, the surviving husband. Judge Quinn has had the case under submission for several months.

The suit over the estate of Mrs. Heim, who died February 3, 1920, drew more than the usual amount of attention from the fact that at first it was believed it also involved judgments obtained by Mrs. Heim against Jerry Wilson, coast financier. Mrs. Heim grubstaked Wilson, who made a fortune of about \$16,000,000 in Klondike. Several suits brought by Mrs. Heim against Wilson, judgments for one-half his fortune, and she was never able to collect because the \$16,000,000 had shrunk to nothing between the time the superior court rendered the judgment and the supreme court affirmed the decision of the lower court.

The question of the legality of Mrs. Schneider's adoption, which was expected to be an important factor in the case, was brought into the proceedings, the issue being confined to whether the property in contest was the personal property of Mrs. Heim or community property. Mrs. Schneider came all the way from Germany to press the suit. Judge Quinn pointed out, however, that the judgments for \$8,000,000 against Jerry Wilson, held by Mrs. Heim, are not community property, since she grubstaked Wilson with her own money, and that it is ever possible to collect these judgments Mrs. Schneider will be entitled to one-half of that sum.

Alameda's C. of C. To Discuss Policy

ALAMEDA, March 2.—The directors of the Alameda Chamber of Commerce will meet at a special supper in Mead's restaurant tomorrow evening for the purpose of discussing the future policy of the organization. A report will be made by Charles C. Wilson, new secretary. Plans will be drawn up for entering more comprehensively into the life and activities of the entire community.

POWYS TALKS ON PREMIERS.

ALAMEDA, March 2.—John Copwer Powys delivered his lecture "Three British Premiers, Gladstone, Disraeli and Lloyd George," before the members of the Adolphian club this afternoon. The occasion was the regular monthly union meeting of the club. Mrs. W. E. Vaughan, president, was hostess.

THURSDAY, MARCH 2, 1922.

ONE TREATY RATIFIED.

By a vote of 67 to 22, the Senate yesterday ratified the first of the treaties concluded between the United States and foreign government at the recent Washington conference on the limitation of armaments and Pacific questions—the American-Japan Yapt treaty. The vote was handsomely more than the required two-thirds.

Only three Republicans voted against ratification. They were Johnson of California, Borah of Idaho and France of Maryland. Against these three irreconcilables, thirteen Democrats voted with the Republican majority; they were Broussard, Dial, Fletcher, Hitchcock, Jones of New Mexico, Kendrick, Meyers, Pomerehne, Ransdell, Smith of South Carolina, Underwood, Walsh of Montana and Williams. This treaty modifies the mandatory over the former German islands in the North Pacific Ocean bestowed upon Japan by the League of Nations. It expressly defines the interests of Japan and the United States with reference to Yap Island, records certain important understandings regarding other former German islands and secures to the United States those advantages claimed in the protest of Secretary of State Hughes against the League of Nations mandate.

The treaty is a settlement of one of the most vexatious questions existing between Japan and the United States. It records a mutual agreement of the two countries to observe faithfully certain conditions regarding questions the outcome of which a few weeks ago was gravely in doubt.

Moreover it is one of those international agreements absolutely necessary to the success of any program or scheme for a naval holiday, for the limitation of armaments and for a reduction in the expenses of maintaining national defense establishments. No Senator who stands against these essential agreements is entitled to be credited with any sincerity in his assertions that he is for reduction of war costs and for guarantees of the future peace. It is fitting that the people keep their heads above the piffing extravagances of those who stand against international amity and common sense in the relations between nations.

Senator Johnson of California stated on Tuesday that the agreements with Japan give to that country "absolute and unlimited control of the Orient." Of course, the treaties do nothing of the kind. If Japan exercise any control in Oriental affairs in the future it will not be because of a single provision of any of the treaties concluded at the Washington conference. On the contrary, those treaties dislodge Japan of much important authority and power heretofore held. They are agreements of delimitation and prescription striking more severely at the Japanese government than at any other.

The United States loses nothing of possession, rights or interests; on the contrary, this country makes substantial gains through the treaties and confirms her contentions all along the line. Currents were running against this country in the Pacific in connection with matters made the subject of these treaties. There were two ways, and two only, of correcting the situation. One was to reach an adjustment by friendly consultation and through an amicable agreement; the other was to go to war, to resort to a test of arms.

The first alternative was chosen. It has succeeded well so far. It is capable of permanent success through intelligent action and honorable dealing. And it is the way above all others that the people of the United States prefer.

We have Senators who, during an entire term have contributed no positive action or thought to the performance of the nation's business. They are Senators of negation. They stand against everything proposed. The vote on the Yapt treaty showed these members to be in a highly satisfactory minority. May the great majority of

the Senate continue to show such good sense and faithfulness to duty in connection with the conclusions of the Washington conference.

THE FAITH OF PIONEERS.

In the middle of the last century an easterner came to California to prospect for gold. The fever of the goldfields was upon him, as it was upon thousands of others who rushed West to amass a fortune quickly. This man prospected and mined for five or six years and then turned his back upon the placer sands and went to Santa Clara county to plant a prune orchard. A contemporary records the fact that in 1866 the first box of dried prunes was shipped from Santa Clara county. The first prune orchardist had a vision beyond the capacity of nearly all his fellow fortune hunters. He saw the wealth that lay in the fertile soil and under the warming sun of the valley.

He was a man with great faith. A. Phideas gets a vision in his mind of a beautiful human figure or a symbolic divine group and with hammer and chisel begins to carve and cut on a solid block of marble. In time his dream figure is reproduced in everlasting stone to arouse the wonder of fifty generations over its supreme beauty.

This California pioneer of the '49 era was of the stuff of Phideas. He envisioned a thickly populated valley, dotted with heavily laden fruit trees, beribboned with railroads and highways, supplying the nation with prunes and bringing to the valley and the State millions of wealth greater in volume than that extracted from the gold mines. And in his great faith he planted a few fruit trees to show himself and others that it might be done. It was slower work than carving marble, slower than building a railroad across the Continent, slower than digging the Panama canal.

There are a score of other romances of great faith, patience and industry in California's agricultural industry—the apricot, the fig, the date, and the citrus fruits. Some day a writer with half as much industry and vision as the pioneers will write their stories and they will be fine reading.

SMOOTH SWINDLERS.

"Blue sky" operators, for the present referred to in New York City as "Bucketeers," are thieving leeches upon the body of society, whose special mode of operation is to steal the money of those unfamiliar with the methods of legitimate investment businesses. Their victims are largely among ignorant men who have acquired more money than they have been used to and silly women who are beguiled by a glib tongue and an impressive presence. It is the duty of government to drive these criminals out of the country, put them in prison or, through adequate restrictions, make them lead honest lives, however hard that may be. It is the duty of government to protect the innocent and ignorant against being swindled out of their savings, just as it is the duty of government to protect the public against ignorant, unqualified practitioners of medicine and surgery.

Many States have "blue sky" laws, but most of them are not severe enough nor enforced with proper vigilance. It is now proposed to enact a federal law designed to present the use of the mails and other agencies of interstate commerce for transporting and promoting the sale of securities contrary to the laws of the States. This bill is now before the House committee of interstate and foreign commerce.

If this law is enacted it will help materially to curtail the operations of the stock swindlers and bucketshop crooks, who are now taking several hundred million dollars away from ignorant investors every year. But it will not do for the several States to rely solely on the efficacy of any federal law. They should prepare, if they have not done so already, to put the crooked investment shark out of business.

Look up the business enterprises that have yielded 100 per cent profit or more on the investment. The list is short and it would not take much time. Then think twice before turning over your money to some one who promises you 100 per cent profit.

THE ISSUES SURVIVES.

The Newberry case may have been settled by the Senate's vote to send the Michigan member, but the issue involved goes on. It will be discussed in many campaigns this year. In Ohio it is sure to be prominent owing to the activity of the two Buckeye senators in the case.

Senator Kenyon of Iowa, one of the Republicans opposed to seating Newberry, canceled his engagement to address a McKinley birthday gathering at Dayton next Saturday because he felt he could not speak freely of the use of large sums of money in politics without being disrespectful to Senator Willis, through whom the Dayton invitation had been given. Senator Shortridge of California, one of the regulars, will substitute for Kenyon.

Ohio's senior senator was leader in the effort to prevent the seating of Newberry because of the very large sums of money spent for his nomination and election. Ohio's junior senator was author of the convenient amendment which enabled the majority to condemn the large expenditures made on Newberry's behalf and at the same time to seat the beneficiary. Pomerehne is expected to run for re-election next fall. Willis will not be a candidate; he will merely figure in the issue.

If he runs Pomerehne will stand on his record, including that part of it involved in the Newberry case. Whoever his opponent may be, it is scarcely probable that he will repudiate Willis by agreeing with Pomerehne. So far as the Newberry case is concerned, therefore, the issue in the senatorial contest promises to be clear cut. Were Senator Kenyon a voter in this state, there can be small doubt where his decision would lie at this point.

Ohio will hear a good debate about the Willis amendment between now and the first Tuesday in November.—Cleveland Plain Dealer.

DAILY ALMANAC

Thursday, March 2.

The lantern was first used as a street light in 1775. . . De Witt Clinton, railroad man and chief promoter of the Erie Canal, was born in 1769. . . One remembers the old model of the De Witt Clinton locomotive. . . The territory of Orleans was created in 1804. . . Arkansas was formed from Missouri in 1819. . . The Missouri Compromise bill was passed in 1820. . . In 1836 Texas signed its declaration of independence and the day there is a holiday. . . Washington territory was organized in 1853. . . In 1867 the department of education was established. . . The day seems to have been a favorite for the organizing of Territories and States, and it will be noticed that the lantern discovery and the education department were answers to the demand for more light.

Another University of California girl has a verse in "Poetry" for this month. Miss Sarah Unna's "Roads" follows:

You have made the ancient road of turf,
That my foot might pass over it
Into the level evening—
Make now the ancient road of tears
That my song may pass over it;
Make the ancient road of song
That my ghost may pass over it.
Coming with the new earth.

Harriet Monroe, editor of Poetry, has waxed angry because of the remark, "Some of the best verse brought out in America first sees the light in the columns of the press." Miss Monroe has her ideas of what constitutes "the best" verse, she is widely regarded as an authority. If some of the best verse has appeared first in the press, she says, she has failed to see it. Funny verse, satirical lines and clever verse, she admits, but the best verse has not blossomed in the newspapers since Eugene Field quit working his typewriter and Bert Taylor laid down his pen and whistle.

Of course Miss Monroe is right. Eddie Guest, for all the fact that state legislatures adjourn when he comes to town and brass bands meet him at the station, is not a writer of the "best" verse, judged by the standards of art. Walt Alston, grinding out his rhymed fence-corner talks, is not a poet. The only answer the newspaper rhymers may have for Miss Monroe is to refer to her so gently to the time a year or so ago when she was admitting to the pages of her impeccable magazine some meaningless bosh which, for a brief period, was dubbed of one "school" or another. Miss Monroe, and her files will show it, has published lines as far removed from the best verse as has any newspaper.

We used to say a man was hoist by his own petard.
But now we read his still blew up
And spread him o'er the yard.

The sign by the railroad track in our canyon which used to read "This Right Away," etc., has been removed and lettered neatly and correctly, "This Right of Way." Until the alteration was made the sign was something to show the occasional visitor, it was good for a laugh any day, and now, that it is going to be accurate, things are no longer the same. At any rate the change shows that, if you wish results you must try the Almanac.

Mary Garden is considering running for the senate. She might come in handy for sounding a keynote.

After reading the story of Lieut. McReady, holder of the altitude records, and the man who says he is going to fly high that he will explode, R. Spinkovitz has written in to ask what the man's wife is doing and saying about the matter. "I suppose she will fly all to pieces," Spink concludes.

The Mad March. The mad March has not so mad as he might be for he takes his ravings to the hills. Right now Kansas is objecting to Pavlova, Kentucky is repudiating Darwin, Nebraska has refused to let its normal school students go to Columbia because students there smoke and Virginia has put the ban on dominoes. There is in addition the Massachusetts ban on Sunday checkers and the interesting announcement of Mr. Voliva that the world is flat and the sky held up by pillars of ice. March is the month of madness and to its call we all respond. There are those, however, who prefer to walk up the hills, take the old rabbit by the paw, and foot the frenzied frolic where no one else will be bothered.

SPEAKING OF BOOMS.

NOTES and COMMENT

Barnum's estimate was too low. More than one is born every minute. This has been shown repeatedly. Men and women have fallen for the most glaring frauds, handing over their money to proved swindlers and palpable crooks with childlike faith. When Ponzi offered 50 per cent in ten days for ninety days, seven millions overwhelmed him as an avalanche. When Biscoff became a young Napoleon of finance four millions were thrust upon him. It is a wonder that those who have the acumen to accumulate money have so little ability to keep it.

There is a good deal of curiosity as to what William Bayard Hale elicited in that interview with the kaiser that was partly printed for the Century Magazine in 1908, and then rigidly suppressed by the kaiser's agents, who bought up the printed sheets for a hundred of years. It is represented that they do not want a potentate of the character of the late kaiser, but that is not so certain.

A German, touring this country, says that Germany wants a monarch. Little doubt of it. Submitting to an overlord has been in them for hundreds of years. It is represented that they do not want a potentate of the character of the late kaiser, but that is not so certain.

An artist has promulgated the theory that prison stripes increase crime. He thinks that orange for convicts' garb would tend to reform them. He says the color chords are akin to music chords. Their beauty and effect are felt sub-consciously. Certainly, if an orange blouse will lead the poor imured prisoners to a better life they should be provided. There may be difficulty, however, in convincing unsentimental people that convicts have such delicately organized sensibilities that wearing a coat of one color instead of another is likely to make much difference.

A despatch is to the effect that the United States may decline to ratify the new law being constructed for it as a reparations condition. Considering what has recently happened to two Zeppelins, this shouldn't surprise. It is likely to be difficult to marshal a crew for a trial trip, let alone fetch it across. And in this case it develops that the reparations award will not be sufficient to complete the craft, and that a supplementary appropriation would be necessary from this country.

Some people seem to be greatly excited over what they consider a subterranean plan to elevate that old Sea Dog Sims to the rank of Admiral, meaning that which has only been conferred on Farragut, Porter and Dewey. There are admirals and admirals, but this is the exalted title of that designation. The bystanding populace may not be ready to take sides on this question, but there are sure to be those who remember how Sims spoke up once upon a time, and who will find it difficult to consider it a disaster if the effort succeeds.

With the lion and the lamb and the mad March hare the month came in as usual, like a zoo.

SPIRIT OF STATE PRESS

In the sale of the Faight ranch at Aransas last week the ownership of one of the finest properties in the valley passes to the ownership of Lewis J. Winter. The sale was one of the largest realty transactions negotiated in the Faight valley recently. The ranch consists of 74 acres of fine land, of which 65 acres are in bearing apricots. The ranch brought an average price of more than \$540 an acre, the consideration being \$40,000, according to the Aransas Realty company, agents, who made the sale.—Watsonville Register.

The officers of Glenn county, with the backing of the grand jury, are certainly making good their determination to stamp out the bootlegging trade in the county. The five raids made a few weeks ago, together with two more this week, show to what extreme blindpighting has been carried on in this county, as how emboldened the robbers of the prohibition law had become. All kinds of choices are taken, for the reason that the traffic is a fabulously profitable one. Fines have no deterrent effect upon the illegal operations. A judge down south the other day rightly said that the only punishment, and one which would have a tendency to minimize bootlegging, was a term of imprisonment.

FAIRS

"From Winnipeg to Rio de Janeiro, and from Christiania and Algiers to Singapore and Tokyo, commercial fairs and exhibitions are springing to life after the discouragement of war years, and are playing an increasingly important part in making nations acquainted with each other and with the kinds of lives each leads," says a bulletin from the Washington, D. C., headquarters of the National Geographic Society. The bulletin points out that a greater number of such expositions is scheduled for 1922 than those held in pre-war days in a decade.

Fairs have been important factors in the lives of nations and in the evolution of society itself," continues the bulletin. "But in order to survive they have to go through some vital changes. They probably started in the dim days of prehistoric Asia as sort of irregular markets held at relatively long intervals; and during the Middle Ages when transportation was difficult they were the chief agencies of European trade.

"Where conditions have remained relatively primitive the famous old fairs have continued to function until today. The annual fair at Nizhny Novgorod continued, largely to dominate the commercial life of Russia until the revolution, and even since then the distribution of foodstuffs, textiles and furs through this old gathering place of traders has been an important item. For centuries it has been the gigantic exchange center between vast areas of Asia and Europe.

"In the portions of the world well developed with highways, canals, railways and ocean ports, both the local and international fairs of the old type, devoted largely to the distribution of stock, livestock, and even since then the distribution of foodstuffs, textiles and furs through this old gathering place of traders has been an important item. For centuries it has been the gigantic exchange center between vast areas of Asia and Europe.

"Before a great while these localized and restricted exhibits expanded to include many industries, those of foreign lands as well as their own. Soon came the full fledged 'world's fairs,' the first of which was held in London in 1851. Many have been held since both in America and Europe, Paris holding the palm for numbers.

"But at the root of the world fairs or international expositions was the idea of general education, and closely connected with it was the amusement aspect. They served well as occasional more or less sugar-coated demonstrations of the progress of the world, but they failed to measure up to the efficiency standards of the modern distributor. Side by side with them had grown up special international industrial exhibits and sample fairs, and by the outbreak of the World War these had been forced into modern agencies meeting twentieth century conditions. Now that all nations are girding themselves for an after-war scramble for trade such fairs are being held on all sides.

"Samples of almost every conceivable manufactured product and machine are sent to some of these exhibits, duty free, and orders are solicited from the buyers who gather from various countries. Among the fairs of this sort which have become established institutions are those held in London, Birmingham, Bordeaux, Lyons, Brussels, Dresden, Leipzig, Prague, Barcelona, Milan, and in dozens of other cities it is planned to hold such exhibits annually.

"In meeting modern conditions not only have fairs been placed on a sample basis and confined largely to specialties, machines and manufactured articles, but they are seeking out still more efficient methods of reaching larger numbers of potential buyers. Italian manufacturers have adopted the floating fair, fitting out a special exhibit ship which anchors for a time in the various ports around the rim of the Mediterranean from Port Said to Marseilles. French distributors carried the idea of a traveling fair, still further last year, sending an exhibit train across Canada; and a Czechoslovak train of a similar sort has just finished a two months' tour through the Balkans and Poland. Perhaps it is not too extravagant a vision to see the fair which had its humble beginning in some far off Asiatic oasis, established in an ark of the air and capable of carrying its message of progress and foreign culture to every little center of industry and life."

An Accommodating Pickered. Uncle Jim, trapper, had some easy "pickin's" in the summer counting department store clerks on hunting and fishing trips.

Last summer there came one whom Uncle Jim catalogued as a fish monomaniac. He had learned all about canals and rivers from a book, and insisted upon being rowed all over the lake long before sunrise.

One morning, while en route to a certain piece of water which this learned fisherman was certain contained every variety of fish, a big pickered made a playful jump in the water near their boat.

"Wait!" Uncle Jim was excitedly commanded. "Didn't you see that whooper jump? Let's stop and catch him."

"Aw, hell stay there," said Uncle Jim. "Let's wait and get him when we come back."—Judge.

JUST FOLKS

By EDGAR A. GUEST

WINTER.

It seems so dead out there today,
The snow lies deep about the place;
The ground whereon the children play
Has lost its touch of charm and grace.

What was a garden, now is bare,
The rose stalks flutter to and fro,
There is no hint that life is there
Beneath the drifted ice and snow.

The sparrows twitter in the tree,
But otherwise no sound is heard,
Where used to ring the minstrelsy
Of many a golden-throated bird.

I gaze across this barren waste
Of beauty held in winter's clutch,
Note the lines of sorrow traced
By desolation's cruel touch.

"Suppose," unto myself, I say,
"This garden bleak and cold and bare,
Were doomed forever thus to stay
And never rose should blossom there?"

But all this ugliness must pass
And ice and snow must vanish soon;
Spring shall awake the slumbering grass,
The roses shall return in June.

So with this faith through life I'd go,
Meeting my care as winter's sting,
Knowing that all the ice and snow
Must vanish with the birth of spring.

U. C. REGENTS TO HOLD MEETING ON STADIUM SITE

BERKELEY, March 2.—Efforts to convince property owners along Strawberry Canyon that the proposed football "bowl" will not desecrate the picturesque campus spot will be made by the regents of the university.

Complete plans for the stadium in the Strawberry Canyon location will be placed on display for careful scrutiny by all persons interested.

No actual steps will be taken for the construction of the stadium until after next Tuesday's meeting of the board of regents and until the complaints of the property owners are placed before that body.

These things were decided yesterday at a "peace conference" held by the regents' committee on building and grounds with a delegation of protesting property owners. In opening the meeting John A. Britton, chairman of the regents' committee, explained that the session had been called to listen to arguments against the stadium site and that no controversy over the merits of the proposal would be entered into.

Britton denied that hasty action had been taken by the regents. He declared that each member of the committee in charge of the selection of the stadium site visited Strawberry Canyon personally and carefully investigated all the claims of the owners. He stated furthermore that the completed plans of the architects in charge of the designing of the stadium would also be carefully scrutinized before they were accepted.

Those who appeared before the regents' committee yesterday were Dr. Earl M. Wilbur, president of the Pacific Unitarian Divinity School, Berkeley; Dr. Barton W. Evermann, director of the California Academy of Sciences, and Walter T. Stellberg, Berkeley architect, representing the campus protective association; Miss Lortha Rickoff, Berkeley property owner; J. S. Cooper of the Cooper Ornithological Society, and E. W. Wilkinson, 2625 Benvenue avenue. Miss Rickoff, who is a property owner in the district affected, was the only one of the delegation to urge that the stadium be placed in the canyon, declaring that such a step would increase property values rather than decrease them.

Annulment Sought For Daughter of 17

Asking that her daughter's marriage to William Francis Riley be declared void, on the ground that Riley has another wife living, Mrs. Marie de Vacas de Vacas filed suit in the Superior court today in behalf of 17-year-old Verna de Vacas Riley.

Mrs. de Vacas asserts that her daughter, who was 17 in November of last year, was married to Riley in December without her consent. The ceremony was performed in San Francisco before Superior Judge J. M. Trout.

\$60,000 FUND FOR JOBLESS IS SOLICITED

Drive Will Be Launched At Meeting To Be Held Tomorrow Under Leadership of J. Cal Ewing and Others

The drive for the unemployed will open with a luncheon to be attended by several hundred representative men at Hotel Oakland at noon tomorrow.

The campaign is under the direction of a special committee headed by J. Cal Ewing and is for the purpose of raising \$60,000 with which to employ destitute Oakland married men now registered at the municipal workyard.

The money thus raised will be spent on public work under the direction of the citizens' emergency employment and relief committee, of which Thomas Eaglesome is chairman.

At tomorrow's luncheon J. Cal Ewing, chairman, will explain that the aim of the campaign is to collect from employed men and women one per cent of their salaries over a period of eight weeks in order that unemployed men may have work.

Following is the team organization, so far as it has been carried out:

INCENDIARIES SOUGHT FOR TWO BLAZES

One Woman Under Arrest, Another Being Questioned By Police After Homes Are Damaged By Flames

One woman is held in jail pending an investigation while another is being questioned by the police as the result of fires which damaged two homes and which are declared by the police and fire officials to have been of incendiary origin. No charge has been placed against the woman in jail.

According to the reports of the police the first fire, which occurred at 12:30 this morning at 3754 Thirty-fifth avenue, was discovered by Mrs. Mary Maxey, who resides there and whose furniture is declared by the police to have been insured for \$2500.

Mrs. Maxey told police inspectors that yesterday she left her home to go on a business trip out of town, but that she missed her train and spent the evening visiting at the home of friends. She came home, she said, shortly after midnight and as she was opening the front door she heard someone moving about in the house. She ran to a fire-house nearby and told the firemen someone was in her home.

The firemen notified the police and Patrolman Palmer was sent to investigate. When he unlocked the front door, he said, the place was filled with smoke. He at once turned in a fire alarm and inspectors William Halderman and Louis Kersch were sent to investigate. According to the inspectors' report the accomplices of the fire, Chief Edward Healy, found some kindling wood in a closet and a pile of rags which had been soaked with oil and set on fire. The damage amounted to about \$200. No arrests have been made.

Policeman W. E. Francis was walking along his beat in West Oakland early this morning when he discovered smoke pouring from the windows of a house at 828 Wood street. Going in to investigate he found Mrs. Ida Randolph, colored, in bed. He found three piles of kindling wood which had been set on fire, he reported. He said Mrs. Randolph could not explain how the fires were started. She said her furniture was insured for \$1500. According to the police there were but a few pieces of furniture in the house at the time the fire was discovered. The damage amounted to about \$50. Mrs. Randolph was arrested and lodged in the city jail pending an investigation.

U. C. Men Stand All Night For Invitation

BERKELEY, March 2.—Standing in line most of the night, freshmen at the university succeeded in securing bids for their annual formal dance which will be held this month. The first 300 men in line were allowed to receive tickets, and the remaining students placed on a waiting list. The line formed at midnight and the collectors built a number of bonfires to add to their comfort while waiting for the sale to open at 8 o'clock this morning.

Berkeley Players To Stage Play Again

BERKELEY, March 2.—Repeat performances of "The Lonely Way" by Arthur Schnitzler, will be given tomorrow and Saturday nights by the Greek Theater players in Wheeler hall. Irving Pichel as Julian Fichtner, the elfish and irresponsible artist, and Violette Wilson as Johanna Wegerat, will be seen in the leading roles. Other parts are taken by Edward Hogan, Morris Ankrum, Herbert Jones and Mary Morris.

"Getting Married," Shaw comedy, is the next production scheduled by the Greek Theater players for March 11, 17 and 18.

Film Star Gets Opportunity She Craved During Her Entire Career

BEAUTIFUL MAE MURRAY, who is now appearing in her latest and most brilliant screen success, "PEACOCK ALLEY," at the American Theater, and MONTE BLUE, who is seen in the leading male role.

Mae Murray Always Wanted to Enact Parisian Beauty; Attains Ambition in "Peacock Alley."

No matter what future successes are gained by the brilliant screen beauty, Mae Murray, it will always be "Peacock Alley" that will be linked with her name in the minds of the public.

In "Peacock Alley" now being seen in its final week at the American Theater, the vivacious little blonde has given the screen a picture that can hardly be duplicated for resplendence of setting and dramatic interest. It is the picture which Mae Murray said after its completion that she had been waiting all of her career to offer.

As Cleo of Paris, a dancing darling of the boulevards she is permitted full scope to display her brilliant dancing ability and manner of modeling lavishly and grotesque gowns. Later, as the film swings in its story to an Indiana town and then to a Normandy village, Miss Murray is given a role which shows of what true dramatic genius she is capable.

"Peacock Alley" will have its final performances today and tomorrow. Other film features and a thematic musical program by John Wharry Lewis and his orchestra enhance the showing of the feature.—Advertiser.

BERKELEY, March 2.—Harmon gymnasium is being transformed into a "Magic Alley" today and everything is practically in readiness for the annual Prytanean fete, to be staged on Saturday night by university girls.

Some hints of how the rouse pot and powder puff will be used a thousand years hence will be afforded by the fair entertainers, all of whom will "make up" in futuristic style for the novel event. In harmony with the zones of color maintained by the "concessions" along the alley will be lighting and costuming effects. Up-to-the-minute "jazz" and improvisations on present-day music will be played for dancing. Concessions of all kinds will line walls of the "gym" with continual entertainment afforded the merry-makers.

Miss Helen Bell, as chairman of the decorations committee, today supervised the activities of scores of girls in getting the gymnasium in readiness. Prominent among the many entertainers for the evening will be Miss Violet Lercara and Miss Becky Gray.

The facts, so far as they are known, about the mysterious personality of Robin Hood will be told in next Sunday's TRIBUNE Magazine, one of the series under the heading "History's Mysteries."

Department Taught by Wire

There was a so-called financial wizard who advertised to give lessons by mail which would enable patrons to prosper in their speculations. If by any chance an investment made under his advice did go wrong the customer was at once to communicate with him for further guidance; thus ran the promise of his published announcements.

A subscriber down in the Southwest found himself in difficulties as a result of following the directions for playing the grain market as laid down by the expert. He wrote a letter to this effect:

"You told me if I got into trouble I was to communicate with you and you would tell me how to act. Well, I done just what you said about buying winter wheat and I am now busted. How shall I act? Please wire."

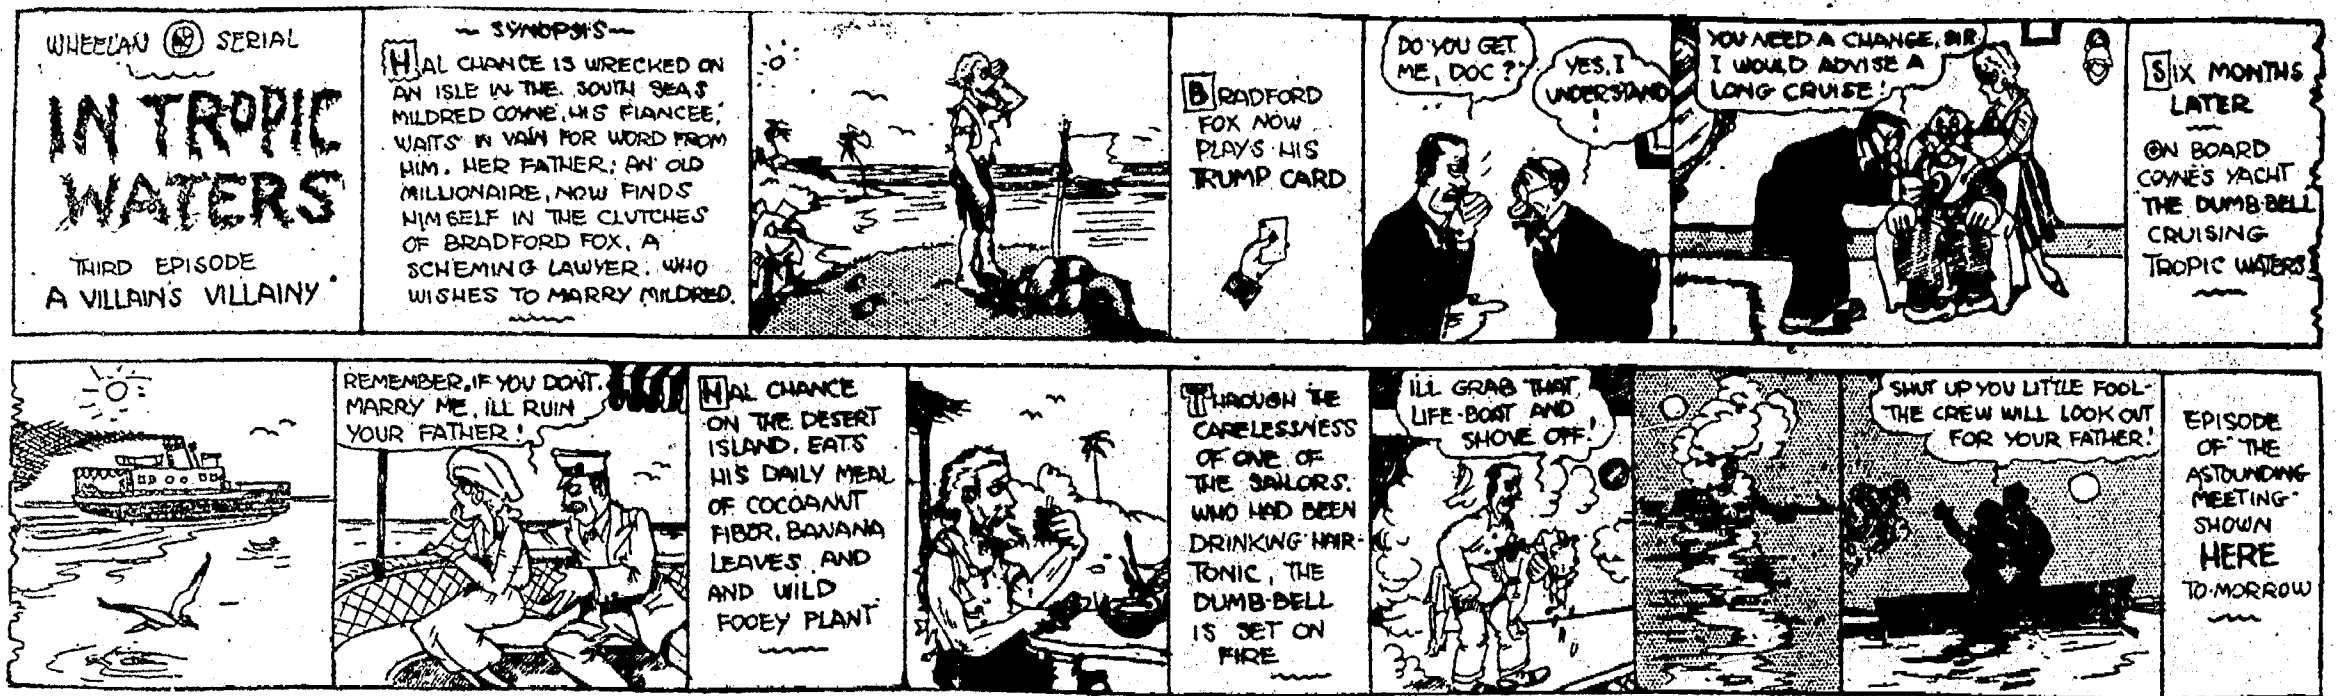

By wire promptly came back the answer:

"Act like you are busted!"

THOUSANDS SLAIN BY RUSSIANS AT RUMANIA BORDER

Refugees Ordered Back To Land of Soviets Fired On By Bolsheviks.

BERLIN, March 2. (By the Associated Press).—Refugees crossing the Danube from Russia into Rumania are being sent back across the frozen river by General Popovitch, the Rumanian refugee controller, and are then shot by the Cheka as soon as they set foot on Russian soil, according to the story told by Germans arriving from the Volga district, who crossed into Rumania two weeks ago.

"The only exceptions are persons who can lay claim to a piece of ground or a house in Rumania, or whose diplomatic representatives furnish funds for transportation through the country," said Friedrich Hartmann, a 47-year-old Russian, born of German parentage and formerly attached to the city administration in Saratov, who has just reached Berlin.

THOUSANDS SHOT.
Hartmann declared that thousands had been shot by the Bolsheviks in this manner and now lie buried in heaps under the snow on the Russian side.

"I myself saw the bodies of 40 Russian Jews whom the Cheka shot when they had been driven by Rumanian rifles after running the Soviet guard," said Hartmann. "Two men told me they had seen the shooting, but not believing this, I went to the river and saw the bodies lying in the snow where they had fallen a few minutes before they were thrown into a common grave, to lie frozen until the spring."

"We were being held by the Rumanians while the German minister was arranging transportation to Germany."

WOMEN SHOT DOWN.
"One day four Germans, two women with their young daughters, were being immediately ordered back by the Rumanian guards. I have seen the Bolsheviks kill some in cold blood the instant they stepped on the Russian shore."

"We crossed one night in a party of 30 and were fired upon by Russian pickets. One man, who was old and a virtual skeleton through hunger, was slain in the head and a woman, weakened from hundreds of miles of walking, was shot in the groin and terribly wounded."

Hartmann asserted that the Bolsheviks killed women and children as well as men on duty at isolated stations or alone. The orders of Lenin and Trotsky were never posted and were never known.

McADOO QUILTS N. Y. TO PRACTICE LAW ON COAST

NEW YORK, March 2.—(By The Associated Press).—William G. McAdoo, secretary of the treasury under President Wilson, announced last night that he soon will leave New York, his home since 1892, and settle in Los Angeles, Calif.

With Mrs. McAdoo he will leave for the Pacific Coast on Friday. His son, Francis H. McAdoo, will succeed him as a member of the New York law firm, McAdoo, Cotton and Franklin, of which he was senior member.

Asked whether he meant to retire from the practice of law, McAdoo said:

"No, sir; I intend my new life to be the beginning of a greater activity than ever before."

Reply to further questions, he flouted the suggestion that he might be going west to become head of any part of the oil or industry or that he was making a political move.

"I'm simply going to Los Angeles to make my home because Mrs. McAdoo and I like the climate and the country," he said. "I expect to hang out my shingle and practice law just as I have been doing since I left my office at Washington."

1000 Business Men to Join in Willys' Welcome

JOHN N. WILLYS, president of the Willys Overland Company, who will be the honor guest Friday at a Chamber of Commerce luncheon.

Auto Magnate Arrives Tomorrow For Luncheon and Survey of Eastbay.

By JIM HOULIHAN.

Under the auspices of the Oakland Chamber of Commerce John N. Willys will be given a royal reception in this city tomorrow when he makes a sightseeing trip through the industrial and residential districts.

The big affair of the day planned by the chamber for the honor guest is a luncheon at noon Friday. Close to a thousand business men are expected to attend.

Willys has announced his intention of constructing a Pacific Coast manufacturing plant in this city, which will be chosen after he has inspected the advantages offered by various California municipalities.

Missionary work has already been started which has for its purpose the location of the Overland factory in Oakland and the luncheon tomorrow ought to develop enough sales argument in favor of the Eastbay district to give this side of the Bay an edge on the other communities in this State.

Southern California can be trusted to put in a strong bid for the new industry and it behooves Alameda county forward to put their best foot forward in convincing Mr. Willys that he ought to make this section his western manufacturing headquarters.

OLDS CHIEF IS HERE.
A. B. C. Hardy, president and general manager of the Olds Motor Works is making a tour of the Pacific Coast landed in San Francisco yesterday and he will be the honor guest tonight at a dinner in San Francisco which is being arranged by J. W. Leavitt & Co.

Markham and Pursler, local Olds dealers had him in tow for a short while today and he expressed his belief to these two men that the Oldsmobile is slated to have a very successful year on the Pacific Coast.

Hardy has been identified with the motor car industry for many years. In fact he has grown up with it. The present trip is his first visit to the Olds chief has made to the Pacific Coast in his official capacity.

Indians Still Are Strong for Distance Runs

Half of Haskell Institute Track Team Candidates For Mile and Two.

LAWRENCE, Kans., March 2.—In keeping with tribal customs, the native reservations, long distance running is the favorite pastime of the Indians. The Haskell Institute, which is a boarding school for Indian boys, has a track team of thirty-one Indians. The track men, however, are not the only ones to whom the Indians are strong for distance runs. The large number trying out for the distances is due to the fact that the past year they have had an influx of Navajo students. New Mexico and Arizona, explained W. McDonald, track coach. "On their native reservations these students had often left their schools on Friday evening, going to their homes a distance of forty miles. They ran practically all the way. On Sunday evening they would return to their schools, arriving in time for their classes on Monday morning."

Illustrating the endurance of the Navajo, the following incident related the following incident: Rex, Andres, a Navajo student from New Mexico, reported for practice recently. He told me he was a long-distance runner. I gave him a suit, took him on the track and told him to take a few laps until he could get up a good sweat and then beat it for the hot showers. In order to loosen up his muscles, he ran the most awkward running form imaginable as Rex started plodding over the straightaway where the sprinters and hurdlers were working out. When I returned to the track an hour and a half later, he and he told me he was still running. He said he was not. I was surprised that he was not breathing hard. He remarked that the air was heavier here than it was where he came from and it hurt him to breathe very deeply. He said he had been running since I let him, but he did not show signs of perspiration on his body. That's just a fair illustration of the way the Navajo boys at Haskell run the short cross-legged, necessitating very short steps. A man with a fair stride will cover a mile in three steps as a Navajo does in three. The redeeming feature of his stride is that he leans far forward so that the weight of the body aids in the forward movement.

Andy Smith Leaves For East on Monday

BERKELEY, Cal., March 2.—Andy Smith, football coach at the University of California, announced today he would leave next Monday for the east to attend the football rules committee meeting.

ADDITIONAL SPORTS HIGH SCHOOL NOTES

Interclass baseball, after being postponed about two weeks, got on its feet Tuesday. The district classes of Oakland high school the night about the Bay View grounds. Batted was no name to it, for the lovely freshman and the highly seniors patted the apple to all corners of the diamond. The seniors especially used the war club spread advantage and at the end of the fray they were left with the good. The final score being seniors 17, sophomores 1. A mighty drubbing, we'll say, and at that the sophs were expected to run for their money before the battle was played. The freshman proved to be stronger than the juniors, which was a surprise, and the final score stood fresh 5, juniors 1. The only run put over by the third-year men came in the final spasm, when they came through with two bingles, which, by the way, were only his made off Fitcher Fluhop's delivery. In the senior line-up were four varsity team captains, Ratkovich of the baseball team, Leitch of basketball, Blume of track and Keane, representing the swimmers. The last three named proved to be just as good as the seniors, as Captain Ratkovich of the baseball team, which is something to boast of, say the least. Captain Blume of the tennis team represented the quiet welders by caving in on the outer pasture for the juniors.

Candidates for the varsity tennis team at Fremont high are getting in line every Tuesday at the Oakland Tennis club, about fifteen aspirants in all being given a careful scrutiny by Coach Polson. The use of four courts is given the Boulevard boys and the interclass series will be probably on the order of the courts. According to Polson the real practice sessions will take the form of interclass matches and the team that will represent Fremont in the O. A. L. will be picked from the members of the interclass teams.

The Oakland high baseball team will back up against strong opposition tomorrow at San Pablo grounds, when they cross bats with Harley Carter's All-Stars, a team under the leadership of the Stanford football player. Carter is the physical director at San Pablo park and is boasting of a team that figures to clean up on all the Eastbay prep schools. One victory has already been marked down in the books for the All-Stars. Berkeley high being the victim last week when Harley's boys pounced upon them for a 14-1 score. The majority of the players on the team are TRIBUNE leaguers, chiefly from the ranks of the Caliente Waters, and hosts of the three higher grades, who cavorted on the latter team during the Midwinter League season. The trip will probably decorate the mound "Chic" Hefley, the youngest of the four for the All-stars.

Latest Move May See Two Leagues Join

JOPLIN, Mo., March 2.—Proposals it became known here today, will be submitted at a meeting of the Western Association in Joplin, Mo., next Sunday to effect a consolidation of the Western Association and Southern League.

An executive committee of the Jasper County Park Association, which will have a lease on the local baseball field, will attend the meeting and submit the plan, F. E. Belden, a member of the committee, said tonight.

Busley Barbour, president of the Southwestern league, said before his departure from Joplin, that he favored the consolidation. Belden said. The local committee, according to Belden, will submit the plan to the Western Association.

SPRINGFIELD, Mo., March 2.—Eustace Barbour, president of the Southwestern league, announced today that a special meeting of club owners would be called for next Monday to discuss plans for a merger with the Western Association. According to Barbour, a two-club circuit is planned, the league of the larger cities of the two leagues.

Winchester Rifle Medals Are Awarded To Local Champions

Some 1424 medals were awarded in the January competitions of the Winchester Rifle Club, that splendid organization that is doing so much for the youth of North America.

More than 1000 boys and girls are members of this organization, which attempts to do everything that all other boys' organizations do—and a little more—and without any cost.

Fourteen expert medals, six won by instructors, 173 became sharpshooters, 249 won boys, 415 won marksmen's badges and 562 won professional medals.

More than 1000 matches were conducted by the Winchester Junior Rifle Corps in 1921, and more than 1000 medals were awarded. Championship matches are conducted for schools, clubs, Y. M. C. A.'s and similar organizations winding up with a National championship event. This was won by Richard Lee Beck of Bridgeport, O.

The names of the local medal winners in January follow: Lyle Sampson, 413 Broadmoor Blvd., San Leandro; Lennie Hill, 5408 Lawton Ave., Oakland; Arnold McDonald, Oakland; Benton Smith, 2110 Central Ave., Alameda; Preston Clyde, Center St., Oakland; Howard Peterson, 924 24th St., Oakland; Roger Bourke, 376 Lakeshore Blvd., S. Washington Invited To Poughkeepsie

SEATTLE, Wash., March 2.—Admiral Impetus has been given to the efforts of University of Washington oarsmen by the arrival of the official invitation to the regatta regatta, June 26. Although the sanction of the University board of control is necessary before Washington can enter the regatta, the purple and gold crew men has been assured, it was said, that a victory over the University of California, April 22, will mean that Washington oarsmen will go east.

Sacramento Owners to Control Stockton Park

STOCKTON, March 2.—Charles Moreland, part owner of the Sacramento Coast League club, has signed a ten years lease to the Oak Park baseball grounds in this city. The park is owned by the city and the lease calls for Sunday morning games here during the regular season. Moreland also announced that construction work would start at once to increase the capacity of the park 33 1/4 percent, seating 5000 people.

Seniors Assessed For Commencement

BERKELEY, March 2.—The senior class at the University has been assessed nearly \$9000 by the general committee making arrangements for commencement week.

Dues of \$9 will be charged to each graduating student to cover the expenses of producing the class play, and financing the banquets and the senior ball. The commencement week activities will begin on May 10.

Government reclamation work to date has cost more than \$17,000,000.

MOTHER ELOPES WITH DAUGHTER'S YOUNG HUSBAND

MAYSVILLE, Ky., March 2.—Two divorce suits are pending in the Mason county circuit court here because Carl Kellum, 23 years old, and his mother-in-law, Mrs. Addie Gallagher, 45, ran off together, according to the petitions filed by Mrs. G. Gallagher Kellum, 18, against her husband, and John Gallagher, 55, against his wife.

Mrs. Kellum says she was married two years ago and was very happy on her husband's farm, four miles from here. A short time ago she alleges, her mother, who lived on an adjoining farm, ran off with Kellum and never returned. Gallagher's petition unfolds the same story.

Kellum and Mrs. Gallagher are living in this county now, the petitions charge.

Read About the 'Play Ball' Game

"Play Ball" made a great hit when it was put on the market late last year. No other ball game so nearly resembles the actual game as this, is so appealing to the baseball fan, or shows so many critical baseball situations in the real baseball "lingo." The players actually travel around the bases as in an actual game, are governed by the same rules, and the result is just as uncertain as in a regular game. Can be played in-doors and out—your mother, dad, sister and brother will all enjoy the fascinating "PLAY BALL" game. Follow the "big league" schedule by playing "Play Ball" at home in the evenings.

"Play Ball" is solidly and durably made of wood and steel and will last for years. You will never tire of playing it as long as baseball is the favorite National sport.

TOD MORGAN SURPRISES BY TAKING DECISION OVER JOE LYNCH

JIM JEFFRIES PREPARING TO FOLLOW IN THE FOOTSTEPS OF BILLY SUNDAY AS EVANGELIST

EDDIE DIGGINS MAKES POOR SHOWING AGAINST HERRERA; GETS A DRAW

Fast Finish By Morgan Gets Him Nod From the Judges; Lynch Fades in Last Rounds.

By BOB SHAND.
Mr. and Mrs. Striped Bass and all the little bass who inhabit the Carquinez Straits have forwarded a protest to the Fish and Game Commission complaining about having their slumbers disturbed. The bass contend that they have busy days picking out clams and sardines without hooks attached and they demand they be allowed to sleep peacefully after midnight. It seems there was some kind of a box-fight at the Oakland Auditorium and a little gent named Tod Morgan, of Georgia street, Vallejo, licked another diminutive little scrapper named Joe Lynch of San Francisco. Immediately after the fight three hundred Vallejoans headed for a special Rodeo ferryboat and they say they made night hideous with loud and raucous sounds. Mister Morgan was carried aboard the boat on the shoulders of Nealy O'Hara, Frank Lee, George Howard, Gus Cole and a few other ultra-enthusiasts and they didn't stop until they had parked him in the captain's cabin.

No other part of the ship was good enough for little Tod. Then the celebration started and it continued until the boat docked at Vallejo. The boys formed a parade on the other side and woke up the entire town. Those who quit the celebration early got home in time for breakfast. They are an enthusiastic bunch of fans, those Vallejoans.

Morgan's Defeat of Joe Lynch a Big Surprise.

Morgan's defeat of Lynch was one of the big surprises of the season. Last time out Tod was given a lacing in three rounds, but got a draw for his game finish in the fourth. Last night Tod didn't get licked in the first three rounds, but he was out in the fourth again, which entitled him to the verdict. The first canto was even until the last ten seconds. Morgan sprang and took the round by forcing the fighting and clouting his little playmate forcibly on the talking apparatus. Lynch was the play away from the Vallejo boy in the second and more than evened up by fight by force. Tod was the other side as the little stranger came in. The third was fairly even, but Morgan was loaded and he scored repeatedly with long rights and left to the face. Lynch was boxing flat-footed and almost fell over himself when he tried to lead. Morgan did the bulk of the leading in every round. Lynch apparently being weary to the last, he tried to lead occasionally. It was a peculiar decision.

Eddie Diggins Has Lost All His Old Form.

Eddie Diggins furnished another surprise. The former Olympic champion in a draw with Joe Lynch, he showed the strength of taking the third round and scoring a clean knock-down, but he was also looked like the best prospect in the lightweight division, and the boys were talking about him. Then he switched managers, changing from Gerald Brown to Johnny Diggins, who has been a good fight since. Perhaps the reversal of form is only a coincidence, but it is a coincidence. Diggins, who was a good fighter, looked like a tramp compared with the Diggins who used to fight over here. Eddie can't do his old distance is fearful to behold. He packs considerable punch but lands it only once in a while. He was in the fourth round dropped Herrera like a log, and when Joe got up at the count he was a mess. Sailor Walters Takes Decision From White.

Sailor Walters won a decision over Eddie White after three good rounds and one slow lining. White looked like a mess in the first round, but he was a good fighter. Indiana Coach Takes Stand For Cleaner Athletics.

CHICAGO, March 2.—Indiana will conduct clean sports, win or lose. Coach E. O. Stehm said last night at the annual banquet of the Indiana University. "This is the only program on which we can stand and continue in athletics," he continued. "We are interested in athletics only insofar as they concern the students who come to Indiana primarily for an education. We must pass their studies at Indiana." George H. Cook, former Indiana football star, said he would like to see the Big Ten presidents get together and clean out the crookedness in university sports. He said that three or four Big Ten men work out the schedule and then throw it to the others, telling them they can take it or leave it.

Billy Sunday to Have Rival in Jim J. Jeffries

LOS ANGELES, March 2.—With the course of three months, if his plans go smoothly as planned, James J. ("Jim") Jeffries, former heavyweight boxing champion of the world, will appear before the public again, but this time as an evangelist. The matter of a contract and publishing of a book are all needed to complete the plans for the conqueror of Tom Sharkey, Jim Corbett, Bob Fitzsimmons and many other shining lights of the squared circle.

Jeffries admitted today that he became interested in preaching the Gospel through a friend by the name of A. F. Rutter, who has written a book based on the fundamental teachings of the New and Old Testaments and couched in language which all can understand. And it is the teachings of this book that the former pugilist will endeavor to carry to all.

Jeffries denied he was entering the new field because of financial gain. Here is a brief digest of the tenets of James J. Jeffries' religion, which he will teach as an evangelist:

- That the man and what he stands for comes first.
- That the moral character and right intentions of the individual mean more than mere incidents.
- That God is great and just and will take everything into consideration in the final judgment.
- That the Lord does not condemn drinking in moderation and the use of tobacco.
- That profane language, in the ordinary sense, is not a cardinal sin.
- That God sees you as you are and you receive judgment accordingly.

Invitational Swim at Stanford March 11

STANFORD UNIVERSITY, March 2.—Final arrangements are being made by Ernest Brandston, Stanford swimming coach, for the big invitational swimming meet to be held in the outdoor swimming pool, March 11. The outside swimming organizations have already announced their intentions of participating in the meet. They are: The Olympic club, Stanford club, Santa Clara college, Santa Clara and the University of California. Each team will be allowed to enter only two men in each event. Each entrant will be allowed in one event and the rest.

The Olympic club will have a strong team entered, with Lester Smith, George Smith, Howell, Small, Paterson and DeFarrar. The Bruins will be represented by Robertson and Mitchell in the 100 yard and 200 yard events. Stanford will enter Austin, Voost and 200. The Bruins will have a strong team entered, with Lester Smith, George Smith, Howell, Small, Paterson and DeFarrar.

BOWLING SCORES

Club	Won	Lost	Pct.
Zenith Mills	10	2	.833
Ambrose Tailors	8	4	.667
Philadelphia Shoes	8	4	.667
Badger Club	6	6	.500
Esquimos	5	7	.417
Shoe Clerks' Union	4	8	.333
Esquimos	3	9	.250

The Ambrose Tailors proved the big team in the fourth round of the Oakland Merchants league, taking three games from the Audubons, to improve his standing, as did Smith and Vincent of the Zenith Mills.

The leading averages at the end of the fourth week in the Merchants league follow:

No.	Name	Club	Average
1.	Long	Audubons	.197
2.	Lightner	(Ambrose)	.179
3.	Udell	(Audubons)	.177
4.	Muncy	(Esquimos)	.179

8.	Jaffa	(Philadelphia Shoes)	.173
9.	Just	(Audubons)	.171
10.	Vincent	(Zenith Mills)	.171

The Ambrose Tailors proved the big team in the fourth round of the Oakland Merchants league, taking three games from the Auditoriums, to forge ahead into a tie for second place with the powerful Philadelphia Shoes, who dropped two to the Badger Club in a poor evening's work. The Ambrose wins have all deserved the credit, and a new high series was set with 2692 for the total pins of three games. A new high series was set with 2692 for the total pins of three games.

Indiana Coach Takes Stand For Cleaner Athletics

CHICAGO, March 2.—Indiana will conduct clean sports, win or lose. Coach E. O. Stehm said last night at the annual banquet of the Indiana University. "This is the only program on which we can stand and continue in athletics," he continued. "We are interested in athletics only insofar as they concern the students who come to Indiana primarily for an education. We must pass their studies at Indiana." George H. Cook, former Indiana football star, said he would like to see the Big Ten presidents get together and clean out the crookedness in university sports. He said that three or four Big Ten men work out the schedule and then throw it to the others, telling them they can take it or leave it.

TRAINING CAMP BREVITIES

PASADENA, March 2.—Ballplayers Springs today in an effort to wind up negotiations with Babe Ruth, whose salary demands caused a delay in the drafting of his contract, while at San Antonio, McGraw announced that the call McGraw made to McGraw Field here yesterday and after scamping around the green sward for a few minutes, without a word, he returned to the hotel with the announcement that he would not be coming to the team in full regular season, but would stay here, the management announced. Tom Turner, boss of the Angels, said he had given up hope of landing Shortstop Emmett McLean of the Athletics. Also, Turner stated, who has been regarded as a Beaver prospect, desires to remain at a Beaver National League. Tom Thorpe was released by the Angels and will be on his way here from Oklahoma.

ANGELS ON THE JOB

ELSONORE, March 2.—Twenty-six members of the Los Angeles Pacific Coast League ball club arrived here yesterday, and today were awaiting the call McGraw made to McGraw Field here yesterday and after scamping around the green sward for a few minutes, without a word, he returned to the hotel with the announcement that he would not be coming to the team in full regular season, but would stay here, the management announced.

AMBITIOUS BUSH

CINCINNATI, O., March 2.—Frank Thornton, of Pittsburgh, semi-professional baseball pitcher, has offered to play his own expenses at the training camp of the Cincinnati National League club at Mineral Wells, Tex., provided a heavy rain or greater rain should prevent his coming to the training grounds here.

TIGERS IN CAMP

DETROIT, March 2.—Twenty-three members of the Detroit American League baseball club arrived here today, awaiting favorable conditions under which to launch the spring training. The Tigers are expected to arrive upon their arrival late yesterday and wet turf, it appeared, would prevent a workout today.

UP TO OAKLAND N. S. TO PROVE THEY CAN PLAY REAL BASEBALL

Their Fall-Down Last Sunday Against Poplars Has Given Bush Fans Gossip Reason.

By EDDIE MURPHY.
Can the Oakland Natives No. 50 come back next Sunday afternoon at the Oakland Coast League park and prove to the baseball fans who have been watching the doings of The Oakland TRIBUNE Midwinter League that they can play a lot better baseball than they did when the Poplar candy team, champions of the American Division, slipped the National champions a 10 to 2 beating? There is no doubt that they are capable of playing a lot better baseball, but it is up to them to prove so next Sunday or they will suffer another beating and the Class A amateur baseball championship of Northern California will be owned by the Poplar nine. And along with the championship will go the handsome gold belts and the right to meet the Oakland club of the Pacific Coast League in the latter's initial appearance before the Oakland fans on the morning of Sunday, March 26.

Andy Phillips Is Anxious To Even Up on Poplars

Manager Bill Crosby of the Natives is promising to make up next Sunday for the "roughing" of his team in the opening game. One thing must be done for it to be understood that the Natives are not to be given by one man. Maybe things will shape up differently. The Natives are not to be given by one man. Judge K. M. Landis Says "No Politics"

CHICAGO, March 2.—K. M. Landis, baseball commissioner, who retired Tuesday, has been asked to go into politics, although a number of admirers have suggested that he be a candidate for mayor of Chicago. In a letter to a friend he said: "I note what you say about the possibility of my going into politics and I thank you for your kind words. I don't get it into your head that I have it in my mind over again to be interested in holding a public office."

Bears and Trojans Move Dates Ahead

LOS ANGELES, March 2.—The University of Southern California basketball team will play its last two games of the 1922 season tomorrow and Saturday night. The Bears and Trojans are slated to meet the five of the University of California in two return games. The Claremont course was opened yesterday and unless there is a reversal of the weather, it will remain open permanently during the remainder of the season. This must be good news to the Claremonters, who have been forced to play on a happy hunting ground, where they know every trick of the course, and play over a very hilly territory, where the wind is a constant factor in each shot. The greenkeepers will be kept busy for the next few weeks cutting the grass and mowing the greens and completing the new holes which have stood up well under adverse conditions.

The new fifth and sixth fairways at Sequoyah are coming along nicely and several of the new greens seem ready for play as soon as rolling and cutting can be started. The series of terraces approaching the new greens and green were being cut and weeded yesterday and looked remarkably well after the operation. The new third green was also being cut and rolled and does not now look so miller Huggins was still at Hotfordmable to the nervous player.

Oaks Working Hard at Camp In Myrtledale

Balance of Squad Arrives in
Camp; Fine Weather
Helps Athletes.

MURLEDALE SPRINGS, March 2—The appearance of Old Sol here yesterday put new life into the assembled squad of the Oaks on the job. Here they have been for a week, huddled and anxious to get under way. The Howard brothers have been casting anxious glances skyward ever day for the past week and yesterday's appearance of the sun was permitted the veterans and rookies to engage in the first real workout of the season. Team Howard was right in the middle of the workout under command of the workout, but there was no need to urge the players off the bench. The players were anxious to get going and were not without loose with a pack of cards which the veterans, proceeding cautiously in their first limbering up, were to use. The sun was still a pill around with so much snap that Brother Pat thought it best to put it a word of warning now and then.

RISE IN STERLING SEEMS PUZZLE TO NEW YORK BANKS

By MAX KASE.
International News Service Staff Correspondent.

NEW YORK, Jan. 29.—Wall Street has had its full share of "mystery," the mystery movements in the market for gold, for foreign currencies, but the mystery of the music the street is the sensational rise in the value of the English pound within less than fifty days of parity. In February, 1920, demand sterling was at a low of 160, and it has steadily advanced until during the early part of this month it sold at 240.

THEORIES ADVANCED.

Manipulation by London bankers has been charged by some in the upturn. However, the advance has attracted attention to the rapid rise in the price of gold, and is being traced back to a peace footing. The British trade figures for January reveal a record for exports, and the illustration of Britain's return to a pre-war level. Imports for January were amounting to 75,483,000 pounds and exports 63,148,000 pounds. This is the smallest excess of imports over exports since 1914.

The Washington conference for the reduction of armaments, allowing for drastic economies in the military branches of the Government, has been a vital factor in the improvement of the British position. The helpful influence has been the Foreign Debt Fundings, which have enabled the Government to pay off the foreign debt had long been pressing influence on Europe. The currency of the United States to which Congress would demand that the Government repay the money is now being repaid by the Government. The currency has now been removed and the loans have been repaid by the Government in a transaction, with a definite business character, by the passage of the fundings.

The rise in sterling is expected to have a beneficial effect on British exports. The value of British goods can now be bought per unit of British

Zionist Bank for Palestine Urged

Mortgage Loans Will Be Given First Consideration by New Enterprise

The Zionist Organization in Palestine, according to a report to the Department of Commerce from Constantinople, has been organized in the south at Jerusalem, has officially registered with the Palestine government and is well known as the General Mortgage Bank, with a capital of £1,200,000 or about \$800,000 at current exchange rates. (Use of smaller private banks of a like nature have been organized on paper and officially registered, but no real government is also making plans for organizing government mortgage bank to receive the funds derived from the liquidation of the former Ottoman Imperial Bank.)

The economic development of Pal-

The five banks at present established in the country make almost exclusively long-term capital loans. There are branches of well established and prosperous international banks in the country, but the main business facts in the capital and in the provinces are in the hands of the foreign employment in Palestine. The American banks are not excluded from sentimental reasons, but the new bank for mortgage loans will develop the mortgage business to the American money.

Mortgage loans will receive first priority in the new bank. The bank when will come long-term farm mortgages. There is no immediate need for short-term loans.

**Packing Co. Prepares
For Delta Season**

RIO VISTA, March 2.—The California Packing Corporation is moving a number of their houses from the Island plant to the local cannery to accommodate the families of the additional men to be employed this season. The announcement several weeks ago that the Volcan plant would not operate this year, caused a larger crowd than usual. The winter season has been so good that the Isleton plant would also suspend for the year, necessitating a still larger increase in the force in Rio Vista.

**Chico Prune Orchard
Sells for \$160,000**

RIO VISTA, March 2.—The Butte County Orchards Company has just closed a deal for the sale to J. W. Proctor of the San Francisco of 22 acres of prune orchard. It is estimated that the

Under the terms of the sale \$55,000 is to be paid in cash to the seller by the Oakland and Sacramento improved property.

Personnel of the selling corporation is comprised of Dr. D. H. Moulton, Walter Gage, J. B. Hook, Dr. J. C. Hamilton and J. B. Johnson.

Excess Money Now Reported in Michigan

DETROIT, Mar. 1.—Excess money conditions are reported to exist in Michigan. The personnel of Michigan from the country banks have paid off their indebtedness to the Federal Reserve bank and are now accumulating funds around April 1, when they expect to meet a large amount. The Detroit currency is projected to reach \$5,000,000 in additional equipment and better facilities. The Federal Reserve bank power are being received and President Wood of the Power company declares this indicates that the Michigan banks will be going at good speed by April 1.

Bell System Now Has 13,000,000 Stations; Two-thirds of All in World

The consolidated income statement for 1921 of the American Telephone and Telegraph Company and its associated companies, shows total operating revenue of \$197,988,234, an increase of \$1,000,000 over the previous year, according to the annual report made public today. The total operating expenses, including depreciation, amounted to \$34,512,474, an increase of \$1,000,000 over the previous year. There was paid \$36,773,998 in interest and dividends, leaving a balance for surplus of \$15,578,289.

The directors of the American Telephone and Telegraph Company today after meeting all operating expenses, and making provision for depreciation and obsolescence, and for federal and other taxes had a balance of \$15,578,289, and dividends of \$37,526,900. The total dividends paid was \$19,424,157, an increase of \$658,000 over the previous year. Dividends paid for 1920, and for 1919, were \$1,000,000 and \$1,000,000 per share per year for the first quarter and \$3 per share per year for the remainder of the year. 1921 amounted to \$2,674,405. The resulting balance was approximately \$1,000,000, and the remainder (\$3,233,200) was carried to the surplus account.

The American Telephone and Telegraph Company had 1,000,000 shareholders of record on December 31, 1921, was \$18,352, an increase of \$1,000,000 over the previous year. The number of shares held was 29 and there were more women shareholders than men. The total number of shareholders, approximately 25,700, are employees of the Bell System.

The business of the telephone business in the United States was

been enormously greater than the increase in the population or general business. In the twenty years the number of telephones has increased 43 per cent while the number of telephones has increased about 500 per cent. At the end of the year there were over 350,000 owned and connected telephones in the Bell System, the third of all the telephones in the country. Any one of these telephones may be used for any of the two-thirds of the Bell System. During 1921, alone, he not gain in owned and connected telephones was 75,281 as viewed from the standpoint of the value of the service to user, this means that with the same amount connected with the Bell System, it was possible at the end of 1921 to reach more than 75,000 homes more telephones and places of business than at the beginning of the year.

the Fifty Mark

NEW YORK, March 2.—The list of Wall street brokerage house failures climbed today to the fifth mark today.

Scott and Stump, a consolidated firm, was the latest to fail. It was reported shortly after the market opened and a short time later Alphonse Deschamps, president of the firm, was taken to the hospital. Edward M. Markelson and Company, announced an assignment.

Markelson and Company recently suspended operations and the three partners were arrested on charges of embezzlement. The firm of Deschamps who also instituted civil action to recover \$16,000.

There had been brokerage offices under the name of Deschamps and Company and it is said that the firm had been in operation since the Stillman divorce case, was in his employ as office man.

The suspension in bankruptcy without an estimate of liabilities or assets was filed against M. E. Deschamps, 27, de Aguiar, Broadway stock brokers.

BURGLAR FIRED
ON BY WOMAN
TAKES FLIGHTProwler Is Frightened Away
When Girl Shoots At
Him in Dark.

Observing the head and shoulders of a man protruding over the banister of a balcony at the home of Mrs. J. W. Thompson, 348 Euclid avenue, she worked with a jimmy in an effort to open a window leading into the laundry room, Margaret Walker, a maid employed at the Thompson home, fired and believed she had killed the prowler until the police investigated and found that he had escaped.

The shooting occurred at 2 o'clock this morning when the maid was awakened by the noise made by the burglar in scaling the wall to reach the balcony. She procured a revolver and went into the laundry room. Standing within a few feet of the window she saw the man's head and shoulders and fired through the window. The burglar dropped more than twelve feet to a concrete walk, but was apparently untouched by the bullet, which was embedded in the banister.

The scene of the shooting is the home of the late I. H. Clay, county assessor, which is now occupied by Mrs. Thompson. The burglar who attempted to break in is believed by the police to be the same prowler reported to be operating along Euclid avenue during the past several nights.

California, particularly Northern California, is famous for its many landmarks associated with early history of the Pacific Coast. One of these is "Bloody Rock," along the north coast. Ross H. Ryder tells how the rock got its name in next Sunday's TRIBUNE Magazine.

GIRLS' 'Y' HOLDS
OAKLAND REALTY
WORTH \$278,000Local Association Enters On
New Year With 5000
Members On Rolls.

The Young Women's Christian Association has a net equity in Oakland property of \$278,000 according to the report of the auditor submitted at the annual meeting this week. The Webster street building, the boarding home in Franklin street, the colored center quarters in Linden street and land in East Oakland were included. The Association launches the new year with approximately 5000 members. The cafeteria, boarding home and hotel have been self-supporting during the past twelve months according to department reports.

More than nine hundred and fifty members are registered in the thirty-one clubs of girl reserves among grade and high school students. The thirty-five volunteer leaders have presided at 512 club meetings during the past year. The camps at Astoria and in the Sierras were attended by 110 girls. Miss Marjorie Armstrong and Miss Dorothy Grout are in charge of the departments.

CLUBS ORGANIZED.

Under the leadership of Miss Phoebe Burritt, thirteen clubs have been organized among employed girls with a membership of 400. Development of the Japanese work into a branch "Y" and beginning of the Chinese work was witnessed in the past year. Over 4000 calls have been made by the two full-time and two part-time interpreters according to the report of Mrs. Edwin Jond James, executive secretary of the International Institute.

The employment bureau was reported as having secured work for several hundred girls in the past twelve months by Miss Grayce Cove, secretary. The service is free.

Mrs. J. J. Valentine, president, presided as chairman at the annual meeting. A general review of the work was offered by Miss Alice Brookman, general secretary.

DIRECTORS ELECTED.
The following directors were elected to the board: Mrs. J. J. Valentine, Mrs. N. A. Koser, Mrs. F. Allard, Mrs. J. G. Hoyt, Mrs. Miles Fox, Mrs. L. E. Cramer and Mrs. E. B. DeGolia. New members on the board, to serve for three years or to fill vacancies are: Mrs. Wm. L. Pathani, Miss Helen Powell, Miss Anita Rodwin, Mrs. Howard Lewis, Mrs. F. V. Buckley, Mrs. Francis Farrier, Mrs. C. F. Rilliet, Mrs. McLean Minor and Mrs. C. H. King. Officers will be elected at a meeting to be held this month.

The facts, so far as they are known, about the mysterious personality of Robin Hood will be told in next Sunday's TRIBUNE Magazine, one of the series under the heading "History's Mysteries."

2000 SCENARIOS
SUBMITTED IN
PRIZE CONTESTManuscripts Rapidly Being
Classified and Sent South
For Expert Survey.

Approximately 2000 manuscripts were submitted to The TRIBUNE in its \$5000 cash prize award for the best scenario-stories. The time limit within which manuscripts could be sent to The TRIBUNE expired at midnight Tuesday, February 28.

The final classification of the manuscripts into their proper divisions was being expedited today. As fast as each batch of manuscripts are classified properly they are forwarded to Los Angeles, where they will be passed upon by the judges.

Owing to the vast amount of work involved in giving each manuscript proper consideration it has been found impossible to set a definite date when the names of the winners will be announced but it is believed this will be possible within thirty days. Both The TRIBUNE and the judges are doing all within their power to designate the winners by the earliest date possible.

CLASSIFICATION TASK.

The work of classifying the manuscripts into their proper divisions is in itself a big task. Manuscripts from pupils in the sixth, seventh and eighth grades in public, private or parochial schools are given one classification. Those from high school grade pupils, college students and adults not attending a school or college must be placed in other divisions. In addition there is the special division for those teachers who have in their classes the winners of the first three prizes.

Age apparently was no bar to becoming an aspirant for a prize. Manuscripts having been received from mere youngsters in sixth grades and adults "well past the prime." Hundreds of the manuscripts were of exceptional literary merit but lacked an acceptable original theme. Others did not possess the polish but had the "idea," while still others possessed both attributes.

TECHNIQUE BARRED.

It has not been necessary for entrants to have a technical knowledge of scenario writing. As a matter of fact they were asked to submit scenario-stories containing action and a plot or theme adaptable to screen production.

The judges will be governed by three things in passing upon the merits of the manuscripts: best English composition, originality of plot and adaptability to motion picture production.

Those who submitted scenario-stories can know that they will be given the utmost painstaking consideration by nationally-known authorities. The judges are: Frank E. Woods, supervisor and chief, Famous Players-Lasky Corporation; Gardner Sullivan, widely-known scenario writer, author of "So Long Letty" and "Canary Cottage";

"DULY QUALIFIED
ELECTOR" IS POINT

BERKELEY, March 2.—The question of what constitutes a "duly qualified elector" is being determined today by City Attorney Lemuel Sanderson as the result of legal points raised in the filing of a referendum petition against the proposed tax-age bill at the foot of University avenue.

That Miss Emma Hahn, city clerk, must scratch off the petition the names of all signers except those registered since January 1 was the contention of Attorney J. E. Pemberton, president of the Berkeley Defense Corps, who appeared before the council this week.

Owing to a conflict in the definition of "qualified electors" in state and local election laws Miss Hahn has referred the question to Sanderson for a decision. Today Sanderson is consulting all authorities obtainable on the question and expects to render a decision soon.

More than 1200 names are on the referendum petition. Work of checking the signatures was started today by the city clerk's office.

CURFEW TO TOLL
END OF DANCES

BERKELEY, March 2.—The mid-night curfew and chaperones may be re-instated at university dances, following a conference of the men's and women's affairs' committees at the college. A "2 o'clock closing rule" is now enforced by the women, but before today's conference, the men would not join in their support of the dance restrictions.

A year ago the co-eds declared that they would leave dances on week nights at 12 o'clock, and that 2 o'clock would be the latest hour for Friday night dances. The men protested, but the sororities stood firm, and the curfew rule has since that time been observed.

Now the girls want to change the rules governing closing time, and desire to have chaperones for all campus affairs. Rather than face the opposition of the men a second time, Miss Olive Pressler, president of the women's association, has called the students to join with the women in their deliberations.

The members of the men's affairs' committee who will attend the future discussions are Stanley Barnes, varsity football player; W. W. Edmonds, editor of the Californian; L. J. O'Brien, managing editor of the Californian; and Whitney Tenney, student body president.
